Abstracts

The Cataract Therapeutics – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031) was valued at in and is anticipated to reach by , at a CAGR of xx% from 2026 to 2032.

The report delivers in-depth insights into key market dynamics, including regional growth trends, market segmentation, CAGR projections, and the revenue performance of leading industry players. It also highlights major growth drivers shaping the market landscape. Designed to provide a clear and comprehensive perspective, the report offers a detailed view of the current market size in terms of both value and volume, along with emerging opportunities and the overall development outlook of the Cataract Therapeutics – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031).

This report delivers a comprehensive overview of the Cataract Therapeutics – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031), with both quantitative and qualitative analyses, to help readers develop growth strategies, assess the competitive landscape, evaluate their position in the current market, and make informed business decisions regarding Cataract Therapeutics – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031). The Cataract Therapeutics – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031) size, estimates, and forecasts are provided in terms of output/shipments (K MT) and revenue (US\$ millions), with 2025 as the base year and historical and forecast data for –.

Cataract Therapeutics – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031) Scope:

Major Highlights

This report delivers a comprehensive overview of the Cataract Therapeutics – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031), with both quantitative and qualitative analyses, to help readers develop growth strategies, assess the competitive landscape, evaluate their position in the current market, and make informed business decisions regarding Cataract Therapeutics – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031). The Cataract Therapeutics – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031) size, estimates, and forecasts are provided in terms of output/shipments (K Sqm) and revenue (US\$ millions), with 2025 as the base year and historical and forecast data for –.

This report will assist keyword manufacturers, new entrants, and companies across the industry value chain with information on revenues, production, and average prices for the overall market and its sub-segments, by company, by Type, by Application, and by region.

Regional Analysis:

North America (U.S., Canada, Mexico)

Europe (U.K., Italy, Germany, Russia, France, Spain, The Netherlands and Rest of Europe)

Asia-Pacific (India, Japan, China, South Korea, Australia, Indonesia Rest of Asia Pacific)

South America (Colombia, Brazil, Argentina, Rest of South America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of Middle East & Africa)

Partner Identification

Increase Your Customer Base by 3X using our Partner Identification tool

Uncover strategic collaboration opportunities with DataM vetted partners aligned to your ecosystem.

Identify high potential M&A targets based on synergies, market positioning and growth trajectory.

Prioritize partners by strategic fit rather than general capability.

Why Choose DataM?

Data-Driven Insights: Dive into detailed analyses with granular insights such as pricing, market shares and value chain evaluations, enriched by interviews with industry leaders and disruptors.

Post-Purchase Support and Expert Analyst Consultations: As a valued client, gain direct access to our expert analysts for personalized advice and strategic guidance, tailored to your specific needs and challenges.

White Papers and Case Studies: Benefit quarterly from our in-depth studies related to your purchased titles, tailored to refine your operational and marketing strategies for maximum impact.

Annual Updates on Purchased Reports: As an existing customer, enjoy the privilege of annual updates to your reports, ensuring you stay abreast of the latest market insights and technological advancements. Terms and conditions apply.

Specialized Focus on Emerging Markets: DataM differentiates itself by delivering in-depth, specialized insights specifically for emerging markets, rather than offering generalized geographic overviews. This approach equips our clients with a nuanced understanding and actionable intelligence that are essential for navigating and succeeding in high-growth regions.

Value of DataM Reports: Our reports offer specialized insights tailored to the latest trends and specific business inquiries. This personalized approach provides a deeper, strategic perspective, ensuring you receive the precise information necessary to make informed decisions. These insights complement and go beyond what is typically available in generic databases.

CATARACT THERAPEUTICS PIPELINE ANALYSIS

- Cataract is defined as a type of disease that occurs due to the clouding of the eye's natural lens, which lies behind iris and pupil.
- Cataract was known to start at any age, and sometimes, it can be present from birth also. The eye lens is transparent and light sensitive and is located at the back of the eye. It helps to focus light rays on the retina, which aids in the formation of a clear image.
- Images at retina are converted into optic signals that are then communicated to the brain. Eye lens consists of protein and water, as a person grows old, the protein gets clump together and starts to form a cloud that continues to grow, makes patient harder to see.
- Symptoms are the clouded, blurred or dim vision, fading or yellowing of colors, double vision in a single eye, increasing difficulty with vision at night, and frequent prescription changes in eyewear.
- Risk factors include age, diabetes, high blood pressure, obesity, drinking excessive amounts of alcohol, and smoking.
- The affected cataract people show the color of eye lens changing to brown, adding a brownish tint to their vision. Consumption of unhygienic crops and fruits, rising level of pollutants in the environment, and the unhealthy lifestyle are some of the other important factors responsible for the increased incidence of cataract disease.
- The acquisition also included accession of ophthalmic products in three business segments such as cataract surgery, laser refractive surgery, and consumer eye health.
- Companies are targeting developing molecules with heat shock proteins, also known as alpha crystalline, that prevents aggregation in the lens of the eye by misfolded proteins.
- For instance, Plex Pharmaceuticals developed a novel compound, which is an alpha crystalline activator that helps in maintaining the proper refractive index in the lens.
- Many companies that conduct clinical studies are going to evaluate the safety and efficacy of drugs in the treatment of cataract disease.
- For example, Bromfenac ophthalmic solution by Bausch & Lomb Incorporated is in the clinical Phase III, DYME by Aqumen Biopharmaceuticals, N.A. is in Phase III, DE-108 by Santen Pharmaceutical Co., Ltd., in clinical Phase III, C-KAD Ophthalmic Solution by Chakshu Research, Inc. in clinical Phase II, and OMS302 by Omeros Corporation is in the clinical Phase I/II. A New Drug Application submitted by Icon Bioscience Inc. (Icon) to the United States Food and Drug Administration for the drug IBI-10090 is for the treatment of inflammation accompanied by post-operative cataract surgery.
- IBI-10090 is an anti-inflammatory-biodegradable extended-release formulation,

injected during eye surgery in the chamber of the eye with the help of Icon's Varisome drug-delivery technology.

- The increase in the occurrence of cataract diseases and technological advancements in ophthalmic devices drive the market growth. In addition, the hike in the geriatric population worldwide boosts the market growth.
- Need for healthcare insurance and lack of awareness among individuals regarding the benefits impede the growth of the cataract therapeutics market.
- Moreover, the burden of cataract-related diseases is reduced by introducing government programs are lucrative opportunities for key market players.
