## Abstracts

This report can be delivered to the clients within 24 Hours

DelveInsight's Diabetic Retinopathy - Competitive Landscape, Pipeline and Market Analysis, 2017 report provides an overview of the epidemiology trends of Diabetic Retinopathy in seven major markets (US, France, Germany, Italy, Spain, UK and Japan). It includes the historical and forecasted epidemiology data for Diabetic Retinopathy prevalent or incident cases segmented by age, sex and subpopulations. The report also discusses the prevailing risk factors, disease burden with special emphasis on the unmet medical need associated with the Diabetic Retinopathy. Further, therapeutic assessment of pipeline products by mechanism of action (MoA), route of administration (RoA), molecule type, along with latest updates are covered in this report. A comprehensive review of the market trends, drivers, barriers, key company profiles including its business and product developments are also detailed here. The report is built using data and information sourced from proprietary databases, primary and secondary research and in-house Forecast model analysis by DelveInsight's team of industry experts.

## KEY COVERAGE AND BENEFITS

The report will help in developing business strategies by understanding the trends shaping and driving the global Diabetic Retinopathy market

Identifying prevalent patient populations as well as risk factors in the global Diabetic retinopathy market will help to improve product design, pricing, and launch plans

To understand the current pipeline scenario of different companies so as to make the research activity more robust and competitive

To understand the future market competition in the global Diabetic Retinopathy market and Insightful review of the key market drivers and barriers

The report also covers the detailed global historical and forecasted Diabetic Retinopathy market covering United States, European Union 5 (EU5 - Germany, Spain, Italy, France and United Kingdom) and Japan from 2013-2023
