OVERVIEW

“Firdapse (amifampridine) - Drug Insight and Market Forecast – 2030” report by DelveInsight outlays comprehensive insights of the product indicated for the treatment of its approved condition. A detailed picture of the Firdapse (amifampridine) in Seven Major Markets, i.e., United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan, for the study period 2017–2030 is provided in this report along with a detailed description of the product. The product details covers mechanism of action, dosage and administration, route of synthesis, and pharmacological studies, including product marketed details, regulatory milestones, and other development activities. Further, it also consists of market assessments inclusive of the market forecast, SWOT analysis, and detailed analyst views. It further highlights the market competitors, late-stage emerging therapies, and patent details in the global space.

Firdapse (amifampridine) is one of the first drugs to be approved for the treatment of Lambert-Eaton myasthenic syndrome (LEMS) in adults. The drug was developed by BioMarin Pharmaceutical and is marketed by Catalyst Pharmaceutical, which secured the marketing rights to Firdapse in North America under a \$5m deal in October 2012. The EU rights are retained by BioMarin. The European Commission (EC) granted marketing authorisation (MA) to Firdapse for the symptomatic treatment of LEMS in December 2009. The drug also secured orphan drug designation in the EU. The US Food and Drug Administration (FDA) granted breakthrough therapy designation to the drug in August 2013. Catalyst Pharmaceutical submitted a new drug application (NDA) for Firdapse to the FDA in March 2018, and the application was accepted and granted

priority review status in May of the same year. Firdapse was approved by the FDA in November 2018.

SCOPE OF THE REPORT

The report provides insights into:

A comprehensive product overview including the product description, mechanism of action, dosage and administration, route of synthesis, pharmacological studies (pharmacodynamics and pharmacokinetics) and adverse reactions.

Elaborated details on regulatory milestones and other development activities have been provided in this report.

The report also highlights the drug marketed details across the United States, Europe and Japan.

The report also covers the patents information with expiry timeline around Firdapse (amifampridine).
