'Klebsiella Pneumoniae Infections - Global API Manufacturers, Marketed and Phase III Drugs Landscape, 2020' report by DelveInsight offers comprehensive insights on marketed and Phase III products for Klebsiella Pneumoniae Infections. The marketed products information covers their product details, patents (US & EU), historical and forecasted sales till 2023. It further provides the marketed products API manufacturer details for United States, Europe, China, and India. The report also covers the emerging Phase III pipeline assets for Klebsiella Pneumoniae Infections including their detailed product profiles.

Additionally, the report also highlights the future competitive landscape for Klebsiella Pneumoniae Infections therapeutics. Depending on information availability comprehensive coverage of the following for Klebsiella Pneumoniae Infections marketed products for Klebsiella Pneumoniae Infections descriptive marketed product profiles for Klebsiella Pneumoniae Infections including (but not limited to) drug description, regulatory milestones, product development and R&D activities encompassing clinical studies, designations, collaborations, licensing deals, grants, technologies and patent details. Also provided are the historical and forecasted global sales till 2023 for each product.

Global API Manufacturers of marketed products for Klebsiella Pneumoniae Infections coverage of API manufacturers for Klebsiella Pneumoniae Infections marketed products spanning across United States, Europe, China and India. The manufacturers details include manufacturers name along with their location Emerging Phase III products for Klebsiella Pneumoniae Infections descriptive Phase III product profiles for Klebsiella Pneumoniae Infections including (but not limited to) drug description, product

development and R&D activities encompassing clinical and pre-clinical studies, designations, collaborations, licensing deals, grants, technologies and patent details. Also their forecasted global sales are provided till 2023.

Report Methodology

The report provides insights into:

Detailed description of the indication including causes, symptoms, pathophysiology, diagnosis and treatment

Comparative analysis of the marketed and emerging products

Detailed profiles for the marketed therapies available including mechanism of action, dosage and administration regulatory milestones, other development activities

Global sales of the marketed therapies from 2012-2023 is covered in the report

Global API Manufacturers for marketed therapies are provided across United States, Europe, China and India

List of emerging therapies with product name, company, stage of development, indication, route of administration and molecule type is also provided

The report is built using data and information traced from the researcher's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations, and featured press releases from company/university web sites and industry-specific third party sources, etc.

## Klebsiella Pneumoniae Infections Analytical Perspective by DelveInsight

In-depth Klebsiella Pneumoniae Infections Commercial Assessment of Marketed Products

This report provides an in-depth commercial assessment of marketed products, which comprises the details of collaborations, licensing, acquisition - deal value trends, patent and global sales.

## Klebsiella Pneumoniae Infections Clinical Assessment of Emerging Products

The report comprises of comparative clinical assessment of products by development stage, route of administration and molecule type across this indication.

### **SCOPE OF THE REPORT**

The Klebsiella Pneumoniae Infections report provides a comprehensive understanding of Klebsiella Pneumoniae Infections marketed and emerging (Phase III) products

Access to API manufacturers details for Klebsiella Pneumoniae Infections marketed drugs to devise API procurement strategy for generic development

Plan developmental timelines around marketed drug patents for the major markets- US and EU

Understand current and future growth of marketed Klebsiella Pneumoniae Infections therapeutics through their historical and forecasted sales

Identify and analyze future sales trends of emerging Phase III Klebsiella Pneumoniae Infections therapeutics through their forecasted sales

Identify the products attributes and use it for target finding, drug repurposing, and precision medicine

Identify and plan ahead for prospective emerging players and their products for Klebsiella Pneumoniae Infections

### **REPORT HIGHLIGHTS**

In the coming years, the Klebsiella Pneumoniae Infections market is set to change due to the extensive research in this field, and incremental healthcare spending across the world; which would expand the size of the market to enable the drug manufacturers to penetrate more into the market.

The companies and academics are working to assess challenges and seek

opportunities that could influence Klebsiella Pneumoniae Infections R&D. The therapies under development are focused on novel approaches to treat/improve the disease condition.

There are many companies involved in developing therapies for Klebsiella Pneumoniae Infections. Launch of emerging therapies of Klebsiella Pneumoniae Infections will significantly impact the market.

A better understanding of target mechanism will also contribute to the development of novel therapeutics for Klebsiella Pneumoniae Infections.

Our in-depth analysis of the marketed and late-stage pipeline assets comparative analysis of the products. This will support the clients in the decision-making process regarding their therapeutic portfolio by identifying the overall scenario of the research and development activities.

## KEY QUESTIONS

What are the current treatment options available based on the Klebsiella Pneumoniae Infections?

How many companies are developing therapies for Klebsiella Pneumoniae Infections?

What are the principal therapies developed by these companies in the industry?

How many therapies are developed by each company for Klebsiella Pneumoniae Infections to treat disease condition?

How many emerging therapies are in late stage of development for Klebsiella Pneumoniae Infections?

What is the trend of historical and forecasted sales of the marketed products from the period 2012-2023?

What are the key collaborations (Industry-Industry, Industry-Academia), Mergers and acquisitions, licensing activities related to the Klebsiella Pneumoniae Infections therapies?

Which are the API manufacturers across United States, Europe, China and India for the marketed therapies?

How many patents are granted to the marketed therapies of *Klebsiella Pneumoniae* Infections?

How late-stage emerging therapies are distinguished on the basis of their mechanism of action, route of administration and molecule type?

## Contents

### 1. REPORT INTRODUCTION

### 2. KLEBSIELLA PNEUMONIAE INFECTIONS

- 2.1. Klebsiella Pneumoniae Infections Symptoms
- 2.2. Klebsiella Pneumoniae Infections Causes
- 2.3. Klebsiella Pneumoniae Infections Types
- 2.4. Klebsiella Pneumoniae Infections Risk Factors / Complications
- 2.5. Klebsiella Pneumoniae Infections Pathophysiology
- 2.6. Klebsiella Pneumoniae Infections Diagnosis
- 2.7. Klebsiella Pneumoniae Infections Treatment

### 3. COMPARATIVE ANALYSIS OF MARKETED AND EMERGING PRODUCTS

- 3.1. Marketed Products
  - 3.1.1. Drug A: Company
    - 3.1.1.1. Product Description
    - 3.1.1.2. Regulatory Milestones
    - 3.1.1.3. Product Development Activities
      - 3.1.1.3.1. General Description Table
    - 3.1.1.4. Global Sales
    - 3.1.1.5. Global API Manufacturers for Drug A
      - 3.1.1.5.1. United States
      - 3.1.1.5.2. Europe
      - 3.1.1.5.3. China
      - 3.1.1.5.4. India
  - 3.1.2. Drug B: Company
    - 3.1.2.1. Product Description
    - 3.1.2.2. Regulatory Milestones
    - 3.1.2.3. Product Development Activities
      - 3.1.2.3.1. General Description Table
    - 3.1.2.4. Global Sales
    - 3.1.2.5. Global API Manufacturers for Drug B
      - 3.1.2.5.1. United States
      - 3.1.2.5.2. Europe
      - 3.1.2.5.3. China
      - 3.1.2.5.4. India

Complete details in the report

3.1.3. Emerging Therapies - Late Phase

3.1.3.1. List of Phase III drugs for Klebsiella Pneumoniae Infections

#### **4. APPENDIX**

#### **5. REPORT METHODOLOGY**

5.1. Secondary Research

5.2. Expert Panel Validation
