## Abstracts

This report can be delivered to the clients within 48 Hours

“Lenti-D- Emerging Drug Insight and Market Forecast – 2030” the report provides comprehensive insights about an investigational product for Cerebral Adrenoleukodystrophy (CALD) in 7 Major Markets. A detailed picture of the LENTI-D in Seven Major Markets, i.e., United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan, for the study period 2020–2030 is provided in this report along with a detailed description of the product. The product details cover mechanism of action, dosage and administration, route of synthesis, and Research and development activity including regulatory milestones, and other development activities. Further, it also consists of future market assessments inclusive of the market forecast, SWOT analysis, market competitors, and other emerging therapies.

### Drug Summary

Elivaldogene autotemcel (formerly elivaldogene tavalentivec) is a gene therapy for X-linked adrenoleukodystrophy. In July 2020, the Committee for Medicinal Products for Human Use (CHMP) of the European Medicines Agency (EMA) granted an accelerated assessment to eli-cel gene therapy for cerebral adrenoleukodystrophy (CALD). bluebird bio is currently on track to submit the Marketing Authorization Application (MAA) in the EU for eli-cel for CALD by year-end 2020, and the Biologics License Application (BLA) in the U.S. in mid-2021. bluebird bio is currently enrolling patients for a Phase 3 study (ALD-104) designed to assess the efficacy and safety of eli-cel after myeloablative conditioning using busulfan and fludarabine in patients with CALD.

### Scope of the report

The report provides insights into:

A comprehensive product overview including the product description, mechanism of action, dosage and administration, Research and Development activity.

Elaborated details on regulatory milestones and other development activities have been provided in this report.

The report also highlights the drug research and development activity details across the United States, Europe and Japan.

The report also covers the patents information with expiry timeline around Lenti-D.

The report contains forecasted sales for Lenti-D till 2030.

Comprehensive coverage of the late-stage emerging therapies (Phase III) for Cerebral Adrenoleukodystrophy (CALD).

The report also features the SWOT analysis with analyst insights and key findings of Lenti-D.

## Methodology

The report is built using data and information sourced primarily from internal databases, primary and secondary research and in-house analysis by DelveInsight's team of industry experts. Information and data from the secondary sources have been obtained from various printable and nonprintable sources like search engines, news websites, global regulatory authorities websites, trade journals, white papers, magazines, books, trade associations, industry associations, industry portals and access to available databases.

## Lenti-D Analytical Perspective by DelveInsight

### In-depth Lenti-D Market Assessment

This report provides a detailed market assessment of Lenti-D in Seven Major Markets, i.e., United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan. This segment of the report provides forecasted sales data from 2020 to 2030.

### Lenti-D Clinical Assessment

The report provides the clinical trials information of Lenti-D covering trial interventions, trial conditions, trial status, start and completion dates.

### Report highlights

In the coming years, the market scenario for Cerebral Adrenoleukodystrophy (CALD) is set to change due to the extensive research and incremental healthcare spending across the world; which would expand the size of the market to enable the drug manufacturers to penetrate more into the market.

The companies and academics are working to assess challenges and seek opportunities that could influence Lenti-D dominance. The therapies under development are focused on novel approaches to treat/improve the disease condition.

Other emerging products for Cerebral Adrenoleukodystrophy (CALD) are giving market competition to Lenti-D and launch of late-stage emerging therapies in the near future will significantly impact the market.

A detailed description of regulatory milestones, development activities, and some key findings provide the current development scenario of Lenti-D.

Our in-depth analysis of the forecasted sales data of Lenti-D from 2020 to 2030 will support the clients in the decision-making process regarding their therapeutic portfolio by identifying the overall scenario of the Lenti-D.

### Key Questions

Which company is developing Lenti-D along with the phase of the clinical study?

What is the technology utilized in the development of Lenti-D?

What is the product type, route of administration and mechanism of action of Lenti-D?

What is the clinical trial status of the study and study completion date?

What are the key collaborations, mergers and acquisitions, licensing and other activities related to the Lenti-D development?

What are the key designations that have been granted to Lenti-D?

What is the forecasted market scenario of Lenti-D?

What is the history of Lenti-D and what is its future?

What is the forecasted sales of Lenti-D in the seven major countries, including the United States, Europe (Germany, France, Italy, Spain, and the United Kingdom), and Japan?

What are the other emerging products available and how these are giving competition to Lenti-D?

Which are the late-stage emerging therapies under development for the treatment of the PPD?

## Contents

### **1. DRUG OVERVIEW**

- 1.1. Product Detail
- 1.2. Mechanism of Action
- 1.3. Dosage and Administration
- 1.4. Research and development activity
  - 1.4.1. Clinical Development
  - 1.4.2. Safety and Efficacy
- 1.5. Other Development Activities

### **2. MARKET ASSESMENT**

- 2.1. 7MM Market Analysis
- 2.2. The United States Market
- 2.3. Germany Market
- 2.4. France Market
- 2.5. Italy Market
- 2.6. Spain Market
- 2.7. United Kingdom Market
- 2.8. Japan Market

### **3. SWOT ANALYSIS**

### **4. ANALYST VIEWS**

### **5. MARKET COMPETITORS**

### **6. OTHER EMERGING THERAPIES**

### **7. APPENDIX**

### **8. REPORT PURCHASE OPTIONS**
