“LINERIXIBAT- Emerging Insight and Market Forecast - 2030” the report provides comprehensive insights about an investigational product for Primary Biliary Cirrhosis in 7 Major Markets. A detailed picture of the LINERIXIBAT in Seven Major Markets, i.e., United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan, for the study period 2020-2030 is provided in this report along with a detailed description of the product. The product details cover mechanism of action, dosage and administration, route of synthesis, and Research and development activity including regulatory milestones, and other development activities. Further, it also consists of future market assessments inclusive of the market forecast, SWOT analysis, market competitors, and other emerging therapies.

Overview

Linerixibat is an investigational product for the treatment of cholestatic pruritus in patients with PBC and it is not currently approved for use anywhere in the world. In 2019, FDA granted orphan drug designation for linerixibat in the treatment of PBC and associated cholestatic pruritus. Linerixibat is a minimally absorbed small molecule inhibitor of IBAT administered as an oral tablet. By blocking resorption of bile acids in the small intestine, linerixibat reduces pruritic bile acids in circulation. It is being developed by GlaxoSmithKline.

Scope of the report

The report provides insights into:

A comprehensive product overview including the product description, mechanism of action, dosage and administration, Research and Development activity.

Elaborated details on regulatory milestones and other development activities have been provided in this report.

The report also highlights the drug research and development activity details across the United States, Europe and Japan.

The report also covers the patents information with expiry timeline around LINERIXIBAT.

The report contains forecasted sales for LINERIXIBAT till 2030.

Comprehensive coverage of the late-stage emerging therapies (Phase III) for Primary Biliary Cirrhosis.

The report also features the SWOT analysis with analyst insights and key findings of LINERIXIBAT.

Methodology

The report is built using data and information sourced primarily from internal databases, primary and secondary research and in-house analysis by DelveInsight's team of industry experts. Information and data from the secondary sources have been obtained from various printable and nonprintable sources like search engines, news websites, global regulatory authorities websites, trade journals, white papers, magazines, books, trade associations, industry associations, industry portals and access to available databases.

LINERIXIBAT Analytical Perspective by DelveInsight

In-depth LINERIXIBAT Market Assessment

This report provides a detailed market assessment of LINERIXIBAT in Seven Major Markets, i.e., United States, EU5 (Germany, France, Italy, Spain, and the United

Kingdom), and Japan. This segment of the report provides forecasted sales data from 2020 to 2030.

LINERIXIBAT Clinical Assessment

The report provides the clinical trials information of LINERIXIBAT covering trial interventions, trial conditions, trial status, start and completion dates.

Report highlights

In the coming years, the market scenario for Primary Biliary Cirrhosis is set to change due to the extensive research and incremental healthcare spending across the world; which would expand the size of the market to enable the drug manufacturers to penetrate more into the market.

The companies and academics are working to assess challenges and seek opportunities that could influence LINERIXIBAT dominance. The therapies under development are focused on novel approaches to treat/improve the disease condition.

Other emerging products for Primary Biliary Cirrhosis are giving market competition to LINERIXIBAT and launch of late-stage emerging therapies in the near future will significantly impact the market.

A detailed description of regulatory milestones, development activities, and some key findings provide the current development scenario of LINERIXIBAT.

Our in-depth analysis of the forecasted sales data of LINERIXIBAT from 2020 to 2030 will support the clients in the decision-making process regarding their therapeutic portfolio by identifying the overall scenario of the LINERIXIBAT.

Key Questions

Which company is developing LINERIXIBAT along with the phase of the clinical study?

What is the technology utilized in the development of LINERIXIBAT?

What is the product type, route of administration and mechanism of action of LINERIXIBAT?

What is the clinical trial status of the study and study completion date?

What are the key collaborations, mergers and acquisitions, licensing and other activities related to the LINERIXIBAT development?

What are the key designations that have been granted to LINERIXIBAT?

What is the forecasted market scenario of LINERIXIBAT?

What is the history of LINERIXIBAT and what is its future?

What is the forecasted sales of LINERIXIBAT in the seven major countries, including the United States, Europe (Germany, France, Italy, Spain, and the United Kingdom), and Japan?

What are the other emerging products available and how these are giving competition to LINERIXIBAT?

Which are the late-stage emerging therapies under development for the treatment of the Primary Biliary Cirrhosis?

Contents

1. DRUG OVERVIEW

- 1.1. Product Detail
- 1.2. Mechanism of Action
- 1.3. Dosage and Administration
- 1.4. Research and development activity
 - 1.4.1. Clinical Development
 - 1.4.2. Safety and Efficacy
- 1.5. Other Development Activities

2. MARKET ASSESMENT

- 2.1. 7MM Market Analysis
- 2.2. The United States Market
- 2.3. Germany Market
- 2.4. France Market
- 2.5. Italy Market
- 2.6. Spain Market
- 2.7. United Kingdom Market
- 2.8. Japan Market

3. SWOT ANALYSIS

4. ANALYST VIEWS

5. MARKET COMPETITORS

6. OTHER EMERGING THERAPIES
