Abstracts

This report can be delivered to the clients within 7-10 Business Days

DelveInsight's 'Lower-Limb Spasticity- Market Insights, Epidemiology, and Market Forecast-2032' report delivers an in-depth understanding of the Lower-Limb Spasticity, historical and forecasted epidemiology as well as the Lower-Limb Spasticity market trends in the United States, EU5 (Germany, Spain, Italy, France, and United Kingdom) and Japan.

The Lower-Limb Spasticity market report provides current treatment practices, emerging drugs, Lower-Limb Spasticity market share of the individual therapies, current and forecasted Lower-Limb Spasticity market Size from 2019 to 2032 segmented by seven major markets. The Report also covers current Lower-Limb Spasticity treatment practice/algorithm, market drivers, market barriers and unmet medical needs to curate best of the opportunities and assesses the underlying potential of the market.

Geography Covered

The United States

EU5 (Germany, France, Italy, Spain, and the United Kingdom)

Japan

Study Period: 2019-2032

Lower-Limb Spasticity Disease Understanding and Treatment Algorithm

The DelveInsight Lower-Limb Spasticity market report gives a thorough understanding of the Lower-Limb Spasticity by including details such as disease definition, symptoms, causes, pathophysiology, diagnosis and treatment.

Diagnosis

This segment of the report covers the detailed diagnostic methods or tests for Lower-Limb Spasticity.

Treatment

It covers the details of conventional and current medical therapies available in the Lower-Limb Spasticity market for the treatment of the condition. It also provides Lower-Limb Spasticity treatment algorithms and guidelines in the United States, Europe, and Japan.

Lower-Limb Spasticity Epidemiology

The Lower-Limb Spasticity epidemiology division provide insights about historical and current Lower-Limb Spasticity patient pool and forecasted trend for every seven major countries. It helps to recognize the causes of current and forecasted trends by exploring numerous studies and views of key opinion leaders. This part of the DelveInsight report also provides the diagnosed patient pool and their trends along with assumptions undertaken.

Key Findings

The disease epidemiology covered in the report provides historical as well as forecasted Lower-Limb Spasticity epidemiology scenario in the 7MM covering the United States, EU5 countries (Germany, Spain, Italy, France, and the United Kingdom), and Japan from 2019 to 2032.

Country Wise- Lower-Limb Spasticity Epidemiology

The epidemiology segment also provides the Lower-Limb Spasticity epidemiology data and findings across the United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan.

Lower-Limb Spasticity Drug Chapters

Drug chapter segment of the Lower-Limb Spasticity report encloses the detailed analysis of Lower-Limb Spasticity marketed drugs and late stage (Phase-III and Phase-II) pipeline drugs. It also helps to understand the Lower-Limb Spasticity clinical trial details, expressive pharmacological action, agreements and collaborations, approval and patent details, advantages and disadvantages of each included drug and the latest news and press releases.

Marketed Drugs

The report provides the details of the marketed product available for Lower-Limb Spasticity treatment.

Lower-Limb Spasticity Emerging Drugs

The report provides the details of the emerging therapies under the late and mid-stage of development for Lower-Limb Spasticity treatment.

Lower-Limb Spasticity Market Outlook

The Lower-Limb Spasticity market outlook of the report helps to build the detailed comprehension of the historic, current, and forecasted Lower-Limb Spasticity market trends by analyzing the impact of current therapies on the market, unmet needs, drivers and barriers and demand of better technology.

This segment gives a thorough detail of Lower-Limb Spasticity market trend of each marketed drug and late-stage pipeline therapy by evaluating their impact based on annual cost of therapy, inclusion and exclusion criteria's, mechanism of action, compliance rate, growing need of the market, increasing patient pool, covered patient segment, expected launch year, competition with other therapies, brand value, their impact on the market and view of the key opinion leaders. The calculated market data are presented with relevant tables and graphs to give a clear view of the market at first sight.

According to DelveInsight, Lower-Limb Spasticity market in 7MM is expected to change in the study period 2019-2032.

Key Findings

This section includes a glimpse of the Lower-Limb Spasticity market in 7MM.

The United States Market Outlook

This section provides the total Lower-Limb Spasticity market size and market size by therapies in the United States.

EU-5 Countries: Market Outlook

The total Lower-Limb Spasticity market size and market size by therapies in Germany, France, Italy, Spain, and the United Kingdom is provided in this section.

Japan Market Outlook

The total Lower-Limb Spasticity market size and market size by therapies in Japan is also mentioned.

Lower-Limb Spasticity Drugs Uptake

This section focusses on the rate of uptake of the potential drugs recently launched in the Lower-Limb Spasticity market or expected to get launched in the market during the study period 2019-2032. The analysis covers Lower-Limb Spasticity market uptake by drugs; patient uptake by therapies; and sales of each drug.

This helps in understanding the drugs with the most rapid uptake, reasons behind the maximal use of new drugs and allow the comparison of the drugs on the basis of market share and size which again will be useful in investigating factors important in market uptake and in making financial and regulatory decisions.

Lower-Limb Spasticity Pipeline Development Activities

The report provides insights into different therapeutic candidates in Phase II, and Phase III stage. It also analyses Lower-Limb Spasticity key players involved in developing targeted therapeutics.

Pipeline Development Activities

The report covers the detailed information of collaborations, acquisition and merger, licensing, patent details and other information for Lower-Limb Spasticity emerging therapies.

Reimbursement Scenario in Lower-Limb Spasticity

Approaching reimbursement proactively can have a positive impact both during the late stages of product development and well after product launch. In a report, we take reimbursement into consideration to identify economically attractive indications and market opportunities. When working with finite resources, the ability to select the markets with the fewest reimbursement barriers can be a critical business and price strategy.

KOL- Views

To keep up with current market trends, we take KOLs and SME's opinion working in Lower-Limb Spasticity domain through primary research to fill the data gaps and validate our secondary research. Their opinion helps to understand and validate current and emerging therapies treatment patterns or Lower-Limb Spasticity market trend. This will support the clients in potential upcoming novel treatment by identifying the overall scenario of the market and the unmet needs.

Competitive Intelligence Analysis

We perform Competitive and Market Intelligence analysis of the Lower-Limb Spasticity Market by using various Competitive Intelligence tools that include - SWOT analysis, PESTLE analysis, Porter's five forces, BCG Matrix, Market entry strategies etc. The inclusion of the analysis entirely depends upon the data availability.

Scope of the Report

The report covers the descriptive overview of Lower-Limb Spasticity, explaining its causes, signs and symptoms, pathophysiology, diagnosis and currently available therapies

Comprehensive insight has been provided into the Lower-Limb Spasticity epidemiology and treatment in the 7MM

Additionally, an all-inclusive account of both the current and emerging therapies

for Lower-Limb Spasticity are provided, along with the assessment of new therapies, which will have an impact on the current treatment landscape

A detailed review of Lower-Limb Spasticity market; historical and forecasted is included in the report, covering drug outreach in the 7MM

The report provides an edge while developing business strategies, by understanding trends shaping and driving the global Lower-Limb Spasticity market

Report Highlights

In the coming years, Lower-Limb Spasticity market is set to change due to the rising awareness of the disease, and incremental healthcare spending across the world; which would expand the size of the market to enable the drug manufacturers to penetrate more into the market

The companies and academics are working to assess challenges and seek opportunities that could influence Lower-Limb Spasticity R&D. The therapies under development are focused on novel approaches to treat/improve the disease condition

Major players are involved in developing therapies for Lower-Limb Spasticity. Launch of emerging therapies will significantly impact the Lower-Limb Spasticity market

A better understanding of disease pathogenesis will also contribute to the development of novel therapeutics for Lower-Limb Spasticity

Our in-depth analysis of the pipeline assets across different stages of development (Phase III and Phase II), different emerging trends and comparative analysis of pipeline products with detailed clinical profiles, key cross-competition, launch date along with product development activities will support the clients in the decision-making process regarding their therapeutic portfolio by identifying the overall scenario of the research and development activities

Key Questions

Market Insights:

What was the Lower-Limb Spasticity market share (%) distribution in 2019 and how it would look like in 2032?

What would be the Lower-Limb Spasticity total market size as well as market size by therapies across the 7MM during the forecast period (2019-2032)?

What are the key findings pertaining to the market across 7MM and which country will have the largest Lower-Limb Spasticity market size during the forecast period (2019-2032)?

At what CAGR, the Lower-Limb Spasticity market is expected to grow in 7MM during the forecast period (2019-2032)?

What would be the Lower-Limb Spasticity market outlook across the 7MM during the forecast period (2019-2032)?

What would be the Lower-Limb Spasticity market growth till 2032, and what will be the resultant market Size in the year 2032?

How would the market drivers, barriers and future opportunities affect the market dynamics and subsequent analysis of the associated trends?

Epidemiology Insights:

What is the disease risk, burden and unmet needs of the Lower-Limb Spasticity?

What is the historical Lower-Limb Spasticity patient pool in seven major markets covering the United States, EU5 (Germany, Spain, France, Italy, UK), and Japan?

What would be the forecasted patient pool of Lower-Limb Spasticity in seven major markets covering the United States, EU5 (Germany, Spain, France, Italy, UK), and Japan?

What will be the growth opportunities in the 7MM with respect to the patient population pertaining to Lower-Limb Spasticity?

Out of all 7MM countries, which country would have the highest prevalent population of Lower-Limb Spasticity during the forecast period (2019-2032)?

At what CAGR the population is expected to grow in 7MM during the forecast period (2019-2032)?

Current Treatment Scenario, Marketed Drugs and Emerging Therapies:

What are the current options for the Lower-Limb Spasticity treatment, along with the approved therapy?

What are the current treatment guidelines for the treatment of Lower-Limb Spasticity in the USA, Europe, and Japan?

What are the Lower-Limb Spasticity marketed drugs and their MOA, regulatory milestones, product development activities, advantages, disadvantages, safety and efficacy, etc.?

How many companies are developing therapies for the treatment of Lower-Limb Spasticity?

How many therapies are developed by each company for Lower-Limb Spasticity treatment?

How many are emerging therapies in mid-stage, and late stage of development for Lower-Limb Spasticity treatment?

What are the key collaborations (Industry - Industry, Industry - Academia), Mergers and acquisitions, licensing activities related to the Lower-Limb Spasticity therapies?

What are the recent novel therapies, targets, mechanisms of action and technologies developed to overcome the limitation of existing therapies?

What are the clinical studies going on for Lower-Limb Spasticity and their status?

What are the key designations that have been granted for the emerging therapies for Lower-Limb Spasticity?

What are the global historical and forecasted market of Lower-Limb Spasticity?

Reasons to buy

The report will help in developing business strategies by understanding trends shaping and driving the Lower-Limb Spasticity market

To understand the future market competition in the Lower-Limb Spasticity market and Insightful review of the key market drivers and barriers

Organize sales and marketing efforts by identifying the best opportunities for Lower-Limb Spasticity in the US, Europe (Germany, Spain, Italy, France, and the United Kingdom) and Japan

Identification of strong upcoming players in the market will help in devising strategies that will help in getting ahead of competitors

Organize sales and marketing efforts by identifying the best opportunities for Lower-Limb Spasticity market

To understand the future market competition in the Lower-Limb Spasticity market

Contents

1. KEY INSIGHTS

2. EXECUTIVE SUMMARY OF LOWER-LIMB SPASTICITY

3. COMPETITIVE INTELLIGENCE ANALYSIS FOR LOWER-LIMB SPASTICITY

4. LOWER-LIMB SPASTICITY: MARKET OVERVIEW AT A GLANCE

4.1. Lower-Limb Spasticity Total Market Share (%) Distribution in 2019

4.2. Lower-Limb Spasticity Total Market Share (%) Distribution in 2032

5. LOWER-LIMB SPASTICITY: DISEASE BACKGROUND AND OVERVIEW

5.1. Introduction

5.2. Sign and Symptoms

5.3. Pathophysiology

5.4. Risk Factors

5.5. Diagnosis

6. PATIENT JOURNEY

7. LOWER-LIMB SPASTICITY EPIDEMIOLOGY AND PATIENT POPULATION

7.1. Epidemiology Key Findings

7.2. Assumptions and Rationale: 7MM

7.3. Epidemiology Scenario: 7MM

7.3.1. Lower-Limb Spasticity Epidemiology Scenario in the 7MM (2019-2032)

7.4. United States Epidemiology

7.4.1. Lower-Limb Spasticity Epidemiology Scenario in the United States (2019-2032)

7.5. EU-5 Country-wise Epidemiology

7.5.1. Germany Epidemiology

7.5.1.1. Lower-Limb Spasticity Epidemiology Scenario in Germany (2019-2032)

7.5.2. France Epidemiology

7.5.2.1. Lower-Limb Spasticity Epidemiology Scenario in France (2019-2032)

7.5.3. Italy Epidemiology

7.5.3.1. Lower-Limb Spasticity Epidemiology Scenario in Italy (2019-2032)

7.5.4. Spain Epidemiology

7.5.4.1. Lower-Limb Spasticity Epidemiology Scenario in Spain (2019-2032)

7.5.5. United Kingdom Epidemiology

7.5.5.1. Lower-Limb Spasticity Epidemiology Scenario in the United Kingdom (2019-2032)

7.5.6. Japan Epidemiology

7.5.6.1. Lower-Limb Spasticity Epidemiology Scenario in Japan (2019-2032)

8. TREATMENT ALGORITHM, CURRENT TREATMENT, AND MEDICAL PRACTICES

8.1. Lower-Limb Spasticity Treatment and Management

8.2. Lower-Limb Spasticity Treatment Algorithm

9. UNMET NEEDS

10. KEY ENDPOINTS OF LOWER-LIMB SPASTICITY TREATMENT

11. MARKETED PRODUCTS

11.1. List of Marketed Products in the 7MM

11.2. Drug Name: Company Name

11.2.1. Product Description

11.2.2. Regulatory Milestones

11.2.3. Other Developmental Activities

11.2.4. Pivotal Clinical Trials

11.2.5. Summary of Pivotal Clinical Trial

List to be continued in report

12. EMERGING THERAPIES

12.1. Key Cross

12.2. Drug Name: Company Name

12.2.1. Product Description

12.2.2. Other Developmental Activities

12.2.3. Clinical Development

12.2.4. Safety and Efficacy

12.2.5. Product Profile

13. LOWER-LIMB SPASTICITY: SEVEN MAJOR MARKET ANALYSIS

13.1. Key Findings

13.2. Lower-Limb Spasticity Market Size in 7MM

13.3. Lower-Limb Spasticity Market Size by Therapies in the 7MM

14. ATTRIBUTE ANALYSIS

15. 7MM: MARKET OUTLOOK

15.1. United States: Market Size

15.1.1. Lower-Limb Spasticity Total Market Size in the United States

15.1.2. Lower-Limb Spasticity Market Size by Therapies in the United States

15.2. EU-5 countries: Market Size and Outlook

15.3. Germany Market Size

15.3.1. Lower-Limb Spasticity Total Market Size in Germany

15.3.2. Lower-Limb Spasticity Market Size by Therapies in Germany

15.4. France Market Size

15.4.1. Lower-Limb Spasticity Total Market Size in France

15.4.2. Lower-Limb Spasticity Market Size by Therapies in France

15.5. Italy Market Size

15.5.1. Lower-Limb Spasticity Total Market Size in Italy

15.5.2. Lower-Limb Spasticity Market Size by Therapies in Italy

15.6. Spain Market Size

15.6.1. Lower-Limb Spasticity Total Market Size in Spain

15.6.2. Lower-Limb Spasticity Market Size by Therapies in Spain

15.7. United Kingdom Market Size

15.7.1. Lower-Limb Spasticity Total Market Size in the United Kingdom

15.7.2. Lower-Limb Spasticity Market Size by Therapies in the United Kingdom

15.8. Japan Market Outlook

15.8.1. Japan Market Size

15.8.2. Lower-Limb Spasticity Total Market Size in Japan

15.8.3. Lower-Limb Spasticity Market Size by Therapies in Japan
