Abstracts

This report can be delivered to the clients within 48 hours

'PARP Inhibitors - Competitive Landscape, Pipeline and Market Analysis, 2018', report provides comprehensive insights about marketed and pipeline drugs across this mechanism of action. The report provides the detailed analysis of 15+ products along with 12+ companies involved. AbbVie and Pfizer are among the developers of most promising pipeline products.

Products covered by Phase

Marketed Products

Phase III, Phase II and Phase I

IND and Pre-clinical

Overview of pipeline development activities for PARP Inhibitors

Pipeline analysis of 15+ therapeutic drugs include but are not limited to drug description and development activities focusing on clinical and non-clinical results, designations, collaborations & licensing deals, grants, technology and patent details. Report contains the development and sale activities for marketed drugs.

Therapeutic segmentation of products for PARP Inhibitors

The report comprises of comparative pipeline therapeutics assessment by development stage, therapy type, molecule type, and administration route across this Immunotherapy.

METHODOLOGY

Data used in the report are sourced primarily from internal databases, primary and secondary research and in-house analysis by DelveInsight's team of industry experts.

Information and data from the secondary sources have been obtained from various printable and non-printable sources like search engines, news websites, global regulatory authorities websites, trade journals, white papers, magazines, books, trade associations, industry associations, industry portals and access to available databases.

SCOPE

The report provides competitive pipeline landscape of PARP Inhibitors

The report provides the marketed drugs information including its sales, development activities and details of patent expiry

The report provides the insight of current and future market for PARP Inhibitors

The report provides pipeline products under drug profile section which includes product description, MOA, licensors & collaborators, development partner and chemical information

Coverage of the PARP Inhibitors pipeline on the basis of target, MOA, route of administration, technology involved and molecule type

The report reviews key players involved in the therapeutics development for PARP Inhibitors and also provide company profiling

Pipeline products coverage based on various stages of development ranging from late stage till pre-clinical stage

Provides pipeline assessment by monotherapy and combination therapy products, stage of development and molecule type

REASONS TO BUY

Identify emerging players with potentially strong product information and create effective counter-strategies to gain competitive advantage

Establish a comprehensive understanding of the current pipeline scenario PARP Inhibitors to formulate effective R&D strategies

Assess challenges and opportunities that influence PARP Inhibitors R&D

Gather impartial perspective of strategies of the emerging competitors having potentially lucrative portfolio in this space and create effective counter strategies to gain competitive advantage

Identify the relationship between the drugs and use it for target finding, drug repurposing, and precision medicine

Devise corrective measures for pipeline projects by understanding PARP Inhibitors pipeline depth and focus of target therapeutics

Developing strategic initiatives to support your drug development activities

Devise in licensing and out licensing strategies by identifying prospective partners with progressing projects for PARP Inhibitors to enhance and expand business potential and scope

Provides strategically significant competitor information, analysis, and insights to formulate effective R&D development strategies

Our extensive domain knowledge on therapy areas support the client in decision-making process regarding their therapeutic portfolio by identifying the reason behind the inactive drugs

Gaining a full picture of the Competitive Landscape for Evidence based Decisions

Contents

Executive Summary
Collaboration, Acquisitions and Licensing
Table of Contents
Overview
Poly (ADP-Ribose) Polymerase
Structure and Function of PARP1
PARP Homologs
Functions of PARP
Role in DNA Repair
Function in Chromatin Remodeling
Effects on Transcription Factors and Epigenetic Factors
PARP Inhibitor
Market Overview
Comparative Analysis of Pipeline & Marketed Products
Marketed Drug Candidate Profiles
Zejula: Tesaro
Product Description
Research and Development
Zejula Heat Map
Product Development Activities
Zejula Heat Map
Forecasted Sales for Zejula
Zejula Analyst Insights
(The list continues)
Market Positioning of PARP Inhibitors
PARP Inhibitors Market Evolution
PARP Inhibitors Class Share Evolution
Pipeline Therapeutics
Comparative Analysis
Late Stage Products (Phase III)
Comparative Analysis
Veliparib: Abbvie
Product Description
Research and Development
Product Development Activities
Forecasted Sales for Veliparib
Veliparib Analyst Insights
(The list continues)

Mid Stage Products (Phase II)
Comparative Analysis
Early Stage Products (Phase I and IND)
Comparative Analysis
Pre-clinical Stage Products
Comparative Analysis
Therapeutic Assessment: Active Products
Assessment by Monotherapy Products
Assessment by Route of Administration
Assessment by Stage and Route of Administration
Dormant Products
Comparative Analysis
Discontinued Products
Comparative Analysis
Appendix
