## Abstracts

This report can be delivered to the clients within 5-7 Business Days

DelveInsight's 'Persistent Pulmonary Hypertension of the Newborn - Epidemiology Forecast to 2032' report delivers an in-depth understanding of the disease, historical and forecasted Persistent Pulmonary Hypertension of the Newborn epidemiology in the 7MM, i.e., the United States, EU5 (Germany, Spain, Italy, France, and the United Kingdom), and Japan.

### Geographies Covered

The United States

EU5 (Germany, France, Italy, Spain, and the United Kingdom)

Japan

Study Period: 2019-2032

### Persistent Pulmonary Hypertension of the Newborn Understanding

The DelveInsight Persistent Pulmonary Hypertension of the Newborn epidemiology report gives a thorough understanding of the Persistent Pulmonary Hypertension of the Newborn by including details such as disease definition, symptoms, causes, pathophysiology, and diagnosis. It also provides treatment algorithms and treatment guidelines for Persistent Pulmonary Hypertension of the Newborn in the US, Europe,

and Japan. The report covers the detailed information of the Persistent Pulmonary Hypertension of the Newborn epidemiology scenario in seven major countries (US, EU5, and Japan).

### Persistent Pulmonary Hypertension of the Newborn Epidemiology Perspective by DelveInsight

The Persistent Pulmonary Hypertension of the Newborn epidemiology division provides insights about historical and current patient pool and forecasted trend for every seven major countries. The Persistent Pulmonary Hypertension of the Newborn epidemiology data are studied through all possible division to give a better understanding of the Disease scenario in 7MM. The Persistent Pulmonary Hypertension of the Newborn epidemiology segment covers the epidemiology data in the US, EU5 countries (Germany, Spain, Italy, France, and the UK), and Japan from 2019 to 2032. It also helps recognize the causes of current and forecasted trends by exploring numerous studies, survey reports and views of key opinion leaders.

### Persistent Pulmonary Hypertension of the Newborn Detailed Epidemiology Segmentation

The Persistent Pulmonary Hypertension of the Newborn epidemiology covered in the report provides historical as well as forecasted Persistent Pulmonary Hypertension of the Newborn epidemiology scenario in the 7MM covering the United States, EU5 countries (Germany, Spain, Italy, France, and the United Kingdom), and Japan from 2019 to 2032.

The DelveInsight Persistent Pulmonary Hypertension of the Newborn report also provides the epidemiology trends observed in the 7MM during the study period, along with the assumptions undertaken. The calculated data are presented with relevant tables and graphs to give a clear view of the epidemiology at first sight.

### Scope of the Report

The Persistent Pulmonary Hypertension of the Newborn report covers a detailed overview explaining its causes, symptoms, classification, pathophysiology, diagnosis and treatment patterns

The Persistent Pulmonary Hypertension of the Newborn Epidemiology Report and Model provide an overview of the global trends of Persistent Pulmonary

Hypertension of the Newborn in the seven major markets (7MM: US, France, Germany, Italy, Spain, UK, and Japan)

The report provides insight into the historical and forecasted patient pool of Persistent Pulmonary Hypertension of the Newborn in seven major markets covering the United States, EU5 (Germany, Spain, France, Italy, UK), and Japan

The report helps recognize the growth opportunities in the 7MM for the patient population

The report assesses the disease risk and burden and highlights the unmet needs of Persistent Pulmonary Hypertension of the Newborn

The report provides the segmentation of the Persistent Pulmonary Hypertension of the Newborn epidemiology

## Report Highlights

11-year Forecast of Persistent Pulmonary Hypertension of the Newborn epidemiology

7MM Coverage

Prevalent and Diagnosed Cases of Persistent Pulmonary Hypertension of the Newborn

Cases of Persistent Pulmonary Hypertension of the Newborn by Mutation Types

Persistent Pulmonary Hypertension of the Newborn Cases associated with Clinical Manifestations

## KOL views

We interview, KOLs and SME's opinion through primary research to fill the data gaps and validate our secondary research. The opinion helps understand the total patient population and current treatment pattern. This will support the clients in potential upcoming novel treatment by identifying the overall scenario of the indications.

## Key Questions Answered

What will be the growth opportunities in the 7MM with respect to the patient population pertaining to Persistent Pulmonary Hypertension of the Newborn?

What are the key findings pertaining to the Persistent Pulmonary Hypertension of the Newborn epidemiology across 7MM and which country will have the highest number of patients during the forecast period (2019-2032)?

What would be the total number of patients of Persistent Pulmonary Hypertension of the Newborn across the 7MM during the forecast period (2019-2032)?

Among the EU5 countries, which country will have the highest number of patients during the forecast period (2019-2032)?

At what CAGR the patient population is expected to grow in 7MM during the forecast period (2019-2032)?

What is the disease risk, burden and unmet needs of Persistent Pulmonary Hypertension of the Newborn?

What are the currently available treatments of Persistent Pulmonary Hypertension of the Newborn?

## Reasons to buy

The Persistent Pulmonary Hypertension of the Newborn Epidemiology report will allow the user to -

Develop business strategies by understanding the trends shaping and driving the global Persistent Pulmonary Hypertension of the Newborn market

Quantify patient populations in the global Persistent Pulmonary Hypertension of the Newborn market to improve product design, pricing, and launch plans

Organize sales and marketing efforts by identifying the age groups and sex that

present the best opportunities for Persistent Pulmonary Hypertension of the Newborn therapeutics in each of the markets covered

Understand the magnitude of Persistent Pulmonary Hypertension of the Newborn population by its epidemiology

The Persistent Pulmonary Hypertension of the Newborn Epidemiology Model developed by DelveInsight is easy to navigate, interactive with dashboards, and epidemiology based with transparent and consistent methodologies. Moreover, the model supports data presented in the report and showcases disease trends over 11-year forecast period using reputable sources

## Key Assessments

Patient Segmentation

Disease Risk & Burden

Risk of disease by the segmentation

Factors driving growth in a specific patient population

## Contents

### 1. KEY INSIGHTS

### 2. EXECUTIVE SUMMARY OF PERSISTENT PULMONARY HYPERTENSION OF THE NEWBORN

### 3. PERSISTENT PULMONARY HYPERTENSION OF THE NEWBORN: DISEASE BACKGROUND AND OVERVIEW

#### 3.1. Introduction

#### 3.2. Sign and Symptoms

#### 3.3. Pathophysiology

#### 3.4. Risk Factors

#### 3.5. Diagnosis

### 4. PATIENT JOURNEY

### 5. EPIDEMIOLOGY AND PATIENT POPULATION

#### 5.1. Epidemiology Key Findings

#### 5.2. Assumptions and Rationale: 7MM

#### 5.3. Epidemiology Scenario: 7MM

5.3.1. Persistent Pulmonary Hypertension of the Newborn Epidemiology Scenario in the 7MM (2019- 2032)

#### 5.4. United States Epidemiology

5.4.1. Persistent Pulmonary Hypertension of the Newborn Epidemiology Scenario in the United States (2019- 2032)

#### 5.5. EU-5 Country-wise Epidemiology

##### 5.5.1. Germany Epidemiology

5.5.1.1. Persistent Pulmonary Hypertension of the Newborn Epidemiology Scenario in Germany (2019- 2032)

##### 5.5.2. France Epidemiology

5.5.2.1. Persistent Pulmonary Hypertension of the Newborn Epidemiology Scenario in France (2019- 2032)

##### 5.5.3. Italy Epidemiology

5.5.3.1. Persistent Pulmonary Hypertension of the Newborn Epidemiology Scenario in Italy (2019- 2032)

##### 5.5.4. Spain Epidemiology

5.5.4.1. Persistent Pulmonary Hypertension of the Newborn Epidemiology Scenario in Spain (2019- 2032)

5.5.5. United Kingdom Epidemiology

5.5.5.1. Persistent Pulmonary Hypertension of the Newborn Epidemiology Scenario in the United Kingdom (2019-2032)

5.6. Japan Epidemiology

5.6.1. Persistent Pulmonary Hypertension of the Newborn Epidemiology Scenario in Japan (2019- 2032)

## **6. TREATMENT ALGORITHM, CURRENT TREATMENT, AND MEDICAL PRACTICES**

6.1. Persistent Pulmonary Hypertension of the Newborn Treatment and Management

6.2. Persistent Pulmonary Hypertension of the Newborn Treatment Algorithm

## **7. KOL VIEWS**

## **8. UNMET NEEDS**

## **9. APPENDIX**

9.1. Bibliography

9.2. Report Methodology

## **10. DELVEINSIGHT CAPABILITIES**

## **11. DISCLAIMER**

## **12. ABOUT DELVEINSIGHT**

\*The table of contents is not exhaustive; will be provided in the final report

## List Of Tables

### LIST OF TABLES

List of Table:

Table 1: Persistent Pulmonary Hypertension of the Newborn Epidemiology in 7MM (2019-2032)

Table 2: Persistent Pulmonary Hypertension of the Newborn Diagnosed and Treatable Cases in 7MM (2019-2032)

Table 3: Persistent Pulmonary Hypertension of the Newborn Epidemiology in the United States (2019-2032)

Table 4: Persistent Pulmonary Hypertension of the Newborn Diagnosed and Treatable Cases in the United States (2019-2032)

Table 5: Persistent Pulmonary Hypertension of the Newborn Epidemiology in Germany (2019-2032)

Table 6: Persistent Pulmonary Hypertension of the Newborn Diagnosed and Treatable Cases in Germany (2019-2032)

Table 7: Persistent Pulmonary Hypertension of the Newborn Epidemiology in France (2019-2032)

Table 8: Persistent Pulmonary Hypertension of the Newborn Diagnosed and Treatable Cases in France (2019-2032)

Table 9: Persistent Pulmonary Hypertension of the Newborn Epidemiology in Italy (2019-2032)

Table 10: Persistent Pulmonary Hypertension of the Newborn Diagnosed and Treatable Cases in Italy (2019-2032)

Table 11: Persistent Pulmonary Hypertension of the Newborn Epidemiology in Spain (2019-2032)

Table 12: Persistent Pulmonary Hypertension of the Newborn Diagnosed and Treatable Cases in Spain (2019-2032)

Table 13: Persistent Pulmonary Hypertension of the Newborn Epidemiology in the United Kingdom (2019-2032)

Table 14: Persistent Pulmonary Hypertension of the Newborn Diagnosed and Treatable Cases in the United Kingdom (2019-2032)

Table 15: Persistent Pulmonary Hypertension of the Newborn Epidemiology in Japan (2019-2032)

Table 16: Persistent Pulmonary Hypertension of the Newborn Diagnosed and Treatable Cases in Japan (2019-2032)

## List Of Figures

### LIST OF FIGURES
