Abstracts

This report can be delivered to the clients within 7-10 Business Days

DelveInsight's 'Pertussis- Market Insights, Epidemiology, and Market Forecast-2032' report delivers an in-depth understanding of the Pertussis, historical and forecasted epidemiology as well as the Pertussis market trends in the United States, EU5 (Germany, Spain, Italy, France, and United Kingdom) and Japan.

The Pertussis market report provides current treatment practices, emerging drugs, Pertussis market share of the individual therapies, current and forecasted Pertussis market Size from 2019 to 2032 segmented by seven major markets. The Report also covers current Pertussis treatment practice/algorithm, market drivers, market barriers and unmet medical needs to curate best of the opportunities and assesses the underlying potential of the market.

Geography Covered

The United States

EU5 (Germany, France, Italy, Spain, and the United Kingdom)

Japan

Study Period: 2019-2032

Pertussis Disease Understanding and Treatment Algorithm

The DelveInsight Pertussis market report gives a thorough understanding of the Pertussis by including details such as disease definition, symptoms, causes, pathophysiology, diagnosis and treatment.

Diagnosis

This segment of the report covers the detailed diagnostic methods or tests for Pertussis.

Treatment

It covers the details of conventional and current medical therapies available in the Pertussis market for the treatment of the condition. It also provides Pertussis treatment algorithms and guidelines in the United States, Europe, and Japan.

Pertussis Epidemiology

The Pertussis epidemiology division provide insights about historical and current Pertussis patient pool and forecasted trend for every seven major countries. It helps to recognize the causes of current and forecasted trends by exploring numerous studies and views of key opinion leaders. This part of the DelveInsight report also provides the diagnosed patient pool and their trends along with assumptions undertaken.

Key Findings

The disease epidemiology covered in the report provides historical as well as forecasted Pertussis epidemiology scenario in the 7MM covering the United States, EU5 countries (Germany, Spain, Italy, France, and the United Kingdom), and Japan from 2019 to 2032.

Country Wise- Pertussis Epidemiology

The epidemiology segment also provides the Pertussis epidemiology data and findings across the United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan.

Pertussis Drug Chapters

Drug chapter segment of the Pertussis report encloses the detailed analysis of

Pertussis marketed drugs and late stage (Phase-III and Phase-II) pipeline drugs. It also helps to understand the Pertussis clinical trial details, expressive pharmacological action, agreements and collaborations, approval and patent details, advantages and disadvantages of each included drug and the latest news and press releases.

Marketed Drugs

The report provides the details of the marketed product available for Pertussis treatment.

Pertussis Emerging Drugs

The report provides the details of the emerging therapies under the late and mid-stage of development for Pertussis treatment.

Pertussis Market Outlook

The Pertussis market outlook of the report helps to build the detailed comprehension of the historic, current, and forecasted Pertussis market trends by analyzing the impact of current therapies on the market, unmet needs, drivers and barriers and demand of better technology.

This segment gives a thorough detail of Pertussis market trend of each marketed drug and late-stage pipeline therapy by evaluating their impact based on annual cost of therapy, inclusion and exclusion criteria's, mechanism of action, compliance rate, growing need of the market, increasing patient pool, covered patient segment, expected launch year, competition with other therapies, brand value, their impact on the market and view of the key opinion leaders. The calculated market data are presented with relevant tables and graphs to give a clear view of the market at first sight.

According to DelveInsight, Pertussis market in 7MM is expected to change in the study period 2019-2032.

Key Findings

This section includes a glimpse of the Pertussis market in 7MM.

The United States Market Outlook

This section provides the total Pertussis market size and market size by therapies in the United States.

EU-5 Countries: Market Outlook

The total Pertussis market size and market size by therapies in Germany, France, Italy, Spain, and the United Kingdom is provided in this section.

Japan Market Outlook

The total Pertussis market size and market size by therapies in Japan is also mentioned.

Pertussis Drugs Uptake

This section focusses on the rate of uptake of the potential drugs recently launched in the Pertussis market or expected to get launched in the market during the study period 2019-2032. The analysis covers Pertussis market uptake by drugs; patient uptake by therapies; and sales of each drug.

This helps in understanding the drugs with the most rapid uptake, reasons behind the maximal use of new drugs and allow the comparison of the drugs on the basis of market share and size which again will be useful in investigating factors important in market uptake and in making financial and regulatory decisions.

Pertussis Pipeline Development Activities

The report provides insights into different therapeutic candidates in Phase II, and Phase III stage. It also analyses Pertussis key players involved in developing targeted therapeutics.

Pipeline Development Activities

The report covers the detailed information of collaborations, acquisition and merger, licensing, patent details and other information for Pertussis emerging therapies.

Reimbursement Scenario in Pertussis

Approaching reimbursement proactively can have a positive impact both during the late

stages of product development and well after product launch. In a report, we take reimbursement into consideration to identify economically attractive indications and market opportunities. When working with finite resources, the ability to select the markets with the fewest reimbursement barriers can be a critical business and price strategy.

KOL- Views

To keep up with current market trends, we take KOLs and SME's opinion working in Pertussis domain through primary research to fill the data gaps and validate our secondary research. Their opinion helps to understand and validate current and emerging therapies treatment patterns or Pertussis market trend. This will support the clients in potential upcoming novel treatment by identifying the overall scenario of the market and the unmet needs.

Competitive Intelligence Analysis

We perform Competitive and Market Intelligence analysis of the Pertussis Market by using various Competitive Intelligence tools that include - SWOT analysis, PESTLE analysis, Porter's five forces, BCG Matrix, Market entry strategies etc. The inclusion of the analysis entirely depends upon the data availability.

Scope of the Report

The report covers the descriptive overview of Pertussis, explaining its causes, signs and symptoms, pathophysiology, diagnosis and currently available therapies

Comprehensive insight has been provided into the Pertussis epidemiology and treatment in the 7MM

Additionally, an all-inclusive account of both the current and emerging therapies for Pertussis are provided, along with the assessment of new therapies, which will have an impact on the current treatment landscape

A detailed review of Pertussis market; historical and forecasted is included in the report, covering drug outreach in the 7MM

The report provides an edge while developing business strategies, by

understanding trends shaping and driving the global Pertussis market

Report Highlights

In the coming years, Pertussis market is set to change due to the rising awareness of the disease, and incremental healthcare spending across the world; which would expand the size of the market to enable the drug manufacturers to penetrate more into the market

The companies and academics are working to assess challenges and seek opportunities that could influence Pertussis R&D. The therapies under development are focused on novel approaches to treat/improve the disease condition

Major players are involved in developing therapies for Pertussis. Launch of emerging therapies will significantly impact the Pertussis market

A better understanding of disease pathogenesis will also contribute to the development of novel therapeutics for Pertussis

Our in-depth analysis of the pipeline assets across different stages of development (Phase III and Phase II), different emerging trends and comparative analysis of pipeline products with detailed clinical profiles, key cross-competition, launch date along with product development activities will support the clients in the decision-making process regarding their therapeutic portfolio by identifying the overall scenario of the research and development activities

Key Questions

Market Insights:

What was the Pertussis market share (%) distribution in 2019 and how it would

look like in 2032?

What would be the Pertussis total market size as well as market size by therapies across the 7MM during the forecast period (2019-2032)?

What are the key findings pertaining to the market across 7MM and which country will have the largest Pertussis market size during the forecast period (2019-2032)?

At what CAGR, the Pertussis market is expected to grow in 7MM during the forecast period (2019-2032)?

What would be the Pertussis market outlook across the 7MM during the forecast period (2019-2032)?

What would be the Pertussis market growth till 2032, and what will be the resultant market Size in the year 2032?

How would the market drivers, barriers and future opportunities affect the market dynamics and subsequent analysis of the associated trends?

Epidemiology Insights:

What is the disease risk, burden and unmet needs of the Pertussis?

What is the historical Pertussis patient pool in seven major markets covering the United States, EU5 (Germany, Spain, France, Italy, UK), and Japan?

What would be the forecasted patient pool of Pertussis in seven major markets covering the United States, EU5 (Germany, Spain, France, Italy, UK), and Japan?

What will be the growth opportunities in the 7MM with respect to the patient population pertaining to Pertussis?

Out of all 7MM countries, which country would have the highest prevalent population of Pertussis during the forecast period (2019-2032)?

At what CAGR the population is expected to grow in 7MM during the forecast period (2019-2032)?

Current Treatment Scenario, Marketed Drugs and Emerging Therapies:

What are the current options for the Pertussis treatment, along with the approved therapy?

What are the current treatment guidelines for the treatment of Pertussis in the USA, Europe, and Japan?

What are the Pertussis marketed drugs and their MOA, regulatory milestones, product development activities, advantages, disadvantages, safety and efficacy, etc.?

How many companies are developing therapies for the treatment of Pertussis?

How many therapies are developed by each company for Pertussis treatment?

How many are emerging therapies in mid-stage, and late stage of development for Pertussis treatment?

What are the key collaborations (Industry - Industry, Industry - Academia), Mergers and acquisitions, licensing activities related to the Pertussis therapies?

What are the recent novel therapies, targets, mechanisms of action and technologies developed to overcome the limitation of existing therapies?

What are the clinical studies going on for Pertussis and their status?

What are the key designations that have been granted for the emerging therapies for Pertussis?

What are the global historical and forecasted market of Pertussis?

Reasons to buy

The report will help in developing business strategies by understanding trends shaping and driving the Pertussis market

To understand the future market competition in the Pertussis market and Insightful review of the key market drivers and barriers

Organize sales and marketing efforts by identifying the best opportunities for Pertussis in the US, Europe (Germany, Spain, Italy, France, and the United Kingdom) and Japan

Identification of strong upcoming players in the market will help in devising strategies that will help in getting ahead of competitors

Organize sales and marketing efforts by identifying the best opportunities for Pertussis market

To understand the future market competition in the Pertussis market
