It also provides treatment algorithms and treatment guidelines for Premature Ejaculation in the US, Europe, and Japan. The report covers the detailed information of the Premature Ejaculation epidemiology scenario in seven major countries (US, EU5, and Japan).

## Premature Ejaculation Epidemiology Perspective by DelveInsight

The Premature Ejaculation epidemiology division provides insights about historical and current patient pool and forecasted trend for every seven major countries. The Premature Ejaculation epidemiology data are studied through all possible division to give a better understanding of the Disease scenario in 7MM. The Premature Ejaculation epidemiology segment covers the epidemiology data in the US, EU5 countries (Germany, Spain, Italy, France, and the UK), and Japan from 2019 to 2032. It also helps recognize the causes of current and forecasted trends by exploring numerous studies, survey reports and views of key opinion leaders.

## Premature Ejaculation Detailed Epidemiology Segmentation

The Premature Ejaculation epidemiology covered in the report provides historical as well as forecasted Premature Ejaculation epidemiology scenario in the 7MM covering the United States, EU5 countries (Germany, Spain, Italy, France, and the United Kingdom), and Japan from 2019 to 2032.

The DelveInsight Premature Ejaculation report also provides the epidemiology trends observed in the 7MM during the study period, along with the assumptions undertaken. The calculated data are presented with relevant tables and graphs to give a clear view of the epidemiology at first sight.

## Scope of the Report

The Premature Ejaculation report covers a detailed overview explaining its causes, symptoms, classification, pathophysiology, diagnosis and treatment patterns

The Premature Ejaculation Epidemiology Report and Model provide an overview of the global trends of Premature Ejaculation in the seven major markets (7MM: US, France, Germany, Italy, Spain, UK, and Japan)

The report provides insight into the historical and forecasted patient pool of Premature Ejaculation in seven major markets covering the United States, EU5 (Germany, Spain, France, Italy, UK), and Japan

The report helps recognize the growth opportunities in the 7MM for the patient

population

The report assesses the disease risk and burden and highlights the unmet needs of Premature Ejaculation

The report provides the segmentation of the Premature Ejaculation epidemiology

## Report Highlights

11-year Forecast of Premature Ejaculation epidemiology

7MM Coverage

Prevalent and Diagnosed Cases of Premature Ejaculation

Cases of Premature Ejaculation by Mutation Types

Premature Ejaculation Cases associated with Clinical Manifestations

## KOL views

We interview, KOLs and SME's opinion through primary research to fill the data gaps and validate our secondary research. The opinion helps understand the total patient population and current treatment pattern. This will support the clients in potential upcoming novel treatment by identifying the overall scenario of the indications.

## Key Questions Answered
