Abstracts

This report can be delivered to the clients within 5-7 Business Days

DelveInsight's 'Primary Progressive Aphasia - Epidemiology Forecast to 2032' report delivers an in-depth understanding of the disease, historical and forecasted Primary Progressive Aphasia epidemiology in the 7MM, i.e., the United States, EU5 (Germany, Spain, Italy, France, and the United Kingdom), and Japan.

Geographies Covered

The United States

EU5 (Germany, France, Italy, Spain, and the United Kingdom)

Japan

Study Period: 2019-2032

Primary Progressive Aphasia Understanding

The DelveInsight Primary Progressive Aphasia epidemiology report gives a thorough understanding of the Primary Progressive Aphasia by including details such as disease definition, symptoms, causes, pathophysiology, and diagnosis. It also provides treatment algorithms and treatment guidelines for Primary Progressive Aphasia in the US, Europe, and Japan. The report covers the detailed information of the Primary Progressive Aphasia epidemiology scenario in seven major countries (US, EU5, and

Japan).

Primary Progressive Aphasia Epidemiology Perspective by DelveInsight

The Primary Progressive Aphasia epidemiology division provides insights about historical and current patient pool and forecasted trend for every seven major countries. The Primary Progressive Aphasia epidemiology data are studied through all possible division to give a better understanding of the Disease scenario in 7MM. The Primary Progressive Aphasia epidemiology segment covers the epidemiology data in the US, EU5 countries (Germany, Spain, Italy, France, and the UK), and Japan from 2019 to 2032. It also helps recognize the causes of current and forecasted trends by exploring numerous studies, survey reports and views of key opinion leaders.

Primary Progressive Aphasia Detailed Epidemiology Segmentation

The Primary Progressive Aphasia epidemiology covered in the report provides historical as well as forecasted Primary Progressive Aphasia epidemiology scenario in the 7MM covering the United States, EU5 countries (Germany, Spain, Italy, France, and the United Kingdom), and Japan from 2019 to 2032.

The DelveInsight Primary Progressive Aphasia report also provides the epidemiology trends observed in the 7MM during the study period, along with the assumptions undertaken. The calculated data are presented with relevant tables and graphs to give a clear view of the epidemiology at first sight.

Scope of the Report

The Primary Progressive Aphasia report covers a detailed overview explaining its causes, symptoms, classification, pathophysiology, diagnosis and treatment patterns

The Primary Progressive Aphasia Epidemiology Report and Model provide an overview of the global trends of Primary Progressive Aphasia in the seven major markets (7MM: US, France, Germany, Italy, Spain, UK, and Japan)

The report provides insight into the historical and forecasted patient pool of Primary Progressive Aphasia in seven major markets covering the United States, EU5 (Germany, Spain, France, Italy, UK), and Japan

The report helps recognize the growth opportunities in the 7MM for the patient population

The report assesses the disease risk and burden and highlights the unmet needs of Primary Progressive Aphasia

The report provides the segmentation of the Primary Progressive Aphasia epidemiology

Report Highlights

11-year Forecast of Primary Progressive Aphasia epidemiology

7MM Coverage

Prevalent and Diagnosed Cases of Primary Progressive Aphasia

Cases of Primary Progressive Aphasia by Mutation Types

Primary Progressive Aphasia Cases associated with Clinical Manifestations

KOL views

We interview, KOLs and SME's opinion through primary research to fill the data gaps and validate our secondary research. The opinion helps understand the total patient population and current treatment pattern. This will support the clients in potential upcoming novel treatment by identifying the overall scenario of the indications.

Key Questions Answered

What will be the growth opportunities in the 7MM with respect to the patient population pertaining to Primary Progressive Aphasia?

What are the key findings pertaining to the Primary Progressive Aphasia epidemiology across 7MM and which country will have the highest number of patients during the forecast period (2019-2032)?

What would be the total number of patients of Primary Progressive Aphasia across the 7MM during the forecast period (2019-2032)?

Among the EU5 countries, which country will have the highest number of patients during the forecast period (2019-2032)?

At what CAGR the patient population is expected to grow in 7MM during the forecast period (2019-2032)?

What is the disease risk, burden and unmet needs of Primary Progressive Aphasia?

What are the currently available treatments of Primary Progressive Aphasia?

Reasons to buy

The Primary Progressive Aphasia Epidemiology report will allow the user to -

- Develop business strategies by understanding the trends shaping and driving the global Primary Progressive Aphasia market

- Quantify patient populations in the global Primary Progressive Aphasia market to improve product design, pricing, and launch plans

- Organize sales and marketing efforts by identifying the age groups and sex that present the best opportunities for Primary Progressive Aphasia therapeutics in each of the markets covered

- Understand the magnitude of Primary Progressive Aphasia population by its epidemiology

The Primary Progressive Aphasia Epidemiology Model developed by DelveInsight is easy to navigate, interactive with dashboards, and epidemiology based with transparent and consistent methodologies. Moreover, the model supports data presented in the report and showcases disease trends over 11-year forecast period using reputable sources

Key Assessments

Patient Segmentation

Disease Risk & Burden

Risk of disease by the segmentation

Factors driving growth in a specific patient population

Contents

1. KEY INSIGHTS

2. EXECUTIVE SUMMARY OF PRIMARY PROGRESSIVE APHASIA

3. PRIMARY PROGRESSIVE APHASIA: DISEASE BACKGROUND AND OVERVIEW

3.1. Introduction

3.2. Sign and Symptoms

3.3. Pathophysiology

3.4. Risk Factors

3.5. Diagnosis

4. PATIENT JOURNEY

5. EPIDEMIOLOGY AND PATIENT POPULATION

5.1. Epidemiology Key Findings

5.2. Assumptions and Rationale: 7MM

5.3. Epidemiology Scenario: 7MM

5.3.1. Primary Progressive Aphasia Epidemiology Scenario in the 7MM (2019- 2032)

5.4. United States Epidemiology

5.4.1. Primary Progressive Aphasia Epidemiology Scenario in the United States (2019-2032)

5.5. EU-5 Country-wise Epidemiology

5.5.1. Germany Epidemiology

5.5.1.1. Primary Progressive Aphasia Epidemiology Scenario in Germany (2019-2032)

5.5.2. France Epidemiology

5.5.2.1. Primary Progressive Aphasia Epidemiology Scenario in France (2019- 2032)

5.5.3. Italy Epidemiology

5.5.3.1. Primary Progressive Aphasia Epidemiology Scenario in Italy (2019- 2032)

5.5.4. Spain Epidemiology

5.5.4.1. Primary Progressive Aphasia Epidemiology Scenario in Spain (2019- 2032)

5.5.5. United Kingdom Epidemiology

5.5.5.1. Primary Progressive Aphasia Epidemiology Scenario in the United Kingdom (2019-2032)

5.6. Japan Epidemiology

5.6.1. Primary Progressive Aphasia Epidemiology Scenario in Japan (2019- 2032)

6. TREATMENT ALGORITHM, CURRENT TREATMENT, AND MEDICAL PRACTICES

6.1. Primary Progressive Aphasia Treatment and Management

6.2. Primary Progressive Aphasia Treatment Algorithm

7. KOL VIEWS

8. UNMET NEEDS

9. APPENDIX

9.1. Bibliography

9.2. Report Methodology

10. DELVEINSIGHT CAPABILITIES
