## Abstracts

This report can be delivered to the clients within 24 hours

DelveInsight's 'Prurigo Nodularis - Market Insights, Epidemiology and Market Forecast-2027' report delivers an in-depth understanding of the disease, historical & forecasted epidemiology trends in the United States, EU5 (Germany, Spain, Italy, France and United Kingdom), and Japan.

The Report provides the current treatment practices, emerging drugs, market share of the individual therapies, current and forecasted market size of Prurigo Nodularis from 2016 to 2027 segmented by the US, EU-5 countries and Japan. The Report also covers current treatment practice/algorithm, market drivers, market barriers and unmet medical needs to curate best of the opportunities and assess underlying potential of the market.

### Geography Covered

The United States

EU5 (Germany, France, Italy, Spain and the United Kingdom)

Japan

Study Period: 2016-2027

Prurigo Nodularis - Disease Understanding and Treatment Algorithm

The DelveInsight Prurigo Nodularis market report gives the thorough understanding of the Prurigo Nodularis by including details such as disease definition, classification, symptoms, etiology, pathophysiology, diagnostic trends, treatment algorithms and treatment guidelines in the US, Europe, and Japan.

### Prurigo Nodularis Epidemiology

The Prurigo Nodularis epidemiology division provide the insights about historical and current patient pool and forecasted trend for every 7 major countries. It helps to recognize the causes of current and forecasted trends by exploring numerous studies and views of key opinion leaders. This part of the DelveInsight report also provides the diagnosed and treatable patient pool and their trends along with assumptions undertaken.

The disease epidemiology covered in the report is segmented into four parts: Total Prevalent Population of Prurigo Nodularis, Total Diagnosed Prevalence of Prurigo Nodularis, Type-Specific Prevalent Population of Prurigo Nodularis and Severity Specific Diagnosed Prevalent Population of Prurigo Nodularis in 7 Major Markets [United States and EU5 (Germany, Spain, Italy, France and United Kingdom) and Japan].

According to DelveInsight, the total prevalent cases of Prurigo Nodularis was 686,375 in 2016 in 7MM and, is expected to increase at a CAGR of XX% during the study period i.e., 2016-2027. Among 7MM, United States accounts for highest prevalent cases of Prurigo Nodularis with 256,941 prevalent cases in 2016.

### Prurigo Nodularis Drug Chapters

This segment of the House Dust Mite Allergy report encloses the detailed analysis of emerging drugs along with a key cross competition. It also helps to understand the clinical trial details, expressive pharmacological action, agreements and collaborations, approval and patent details, advantages and disadvantages of each included drug and the latest news and press releases.

Prurigo Nodularis (PN) is a chronic, bothersome-to-debilitating disease of the skin, usually seen as multiple, intense pruritic, and excoriated nodules erupting on the surfaces of the extremities with intense itching or rubbing. Prurigo Nodules are cutaneous lesions often produced by repetitive scratching hence the nickname “picker’s nodules”, which may occur as sequel of chronic pruritus or neurotic

excoriations.

## Prurigo Nodularis Market Outlook

The Prurigo Nodularis market outlook of the report helps to build the detailed comprehension of the historic, current and forecasted trend of the market by analyzing the impact of current therapies on the market, unmet needs, drivers and barriers and demand of better technology.

This segment gives a through detail of market trend of each marketed drug and late-stage pipeline therapy by evaluating their impact based on annual cost of therapy, inclusion and exclusion criteria's, mechanism of action, compliance rate, growing need of the market, increasing patient pool, covered patient segment, expected launch year, competition with other therapies, brand value, their impact on the market and view of the key opinion leaders. The calculated market data are presented with relevant tables and graphs to give a clear view of the market at first sight.

The report provides global market share of Prurigo Nodularis i.e., 7 Major Markets [United States and EU5 (Germany, Spain, Italy, France and United Kingdom)] and Japan. In 2016, global market size of Prurigo Nodularis was USD 133.65 million and, is expected to grow at a CAGR of XX% during the forecast period of 2018-2027.

The region-wise market size for Prurigo Nodularis in US, EU-5 countries (Germany, France, Italy, Spain and the U.K.) and Japan shows highest market size in US, followed by Germany.

## Prurigo Nodularis Drugs Uptake

This section focusses on the rate of uptake of the potential drugs recently launched in the market or will get launched in the market during the study period from 2016-2027. The analysis covers market uptake by drugs; patient uptake by therapies and sales of each drug.

This helps in understanding the drugs with the most rapid uptake, reasons behind the maximal use of new drugs and allows the comparison of the drugs on the basis of market share and size which again will be useful in investigating factors important in market uptake and in making financial and regulatory decisions.

## Prurigo Nodularis Report Insights

Patient Population

Market Size and Trends

Pipeline Analysis

Market Opportunities

Impact of upcoming Therapies

## Prurigo Nodularis Report Key Strengths

10 Year Forecast

7MM Coverage

Epidemiology Segmentation

Drugs Uptake

Highly Analyzed Market

Key Cross Competition

## Prurigo Nodularis Report Assessment

Current Treatment Practices

Unmet Needs

Market Attractiveness

Market Drivers and Barriers

## Key Benefits

This DelveInsight report will help to develop Business Strategies by understanding the trends shaping and driving the Prurigo Nodularis market

Organize sales and marketing efforts by identifying the best opportunities for Prurigo Nodularis market

To understand the future market competition in the Prurigo Nodularis market.

## Contents

### **1. KEY INSIGHTS**

### **2. PRURIGO NODULARIS MARKET OVERVIEW AT A GLANCE**

- 2.1. Market Share (%) Distribution of Prurigo Nodularis in 2017
- 2.2. Market Share (%) Distribution of Prurigo Nodularis in 2027
- 2.3. Total Market Share (%) Distribution of Prurigo Nodularis by therapies in 2016
- 2.4. Total Market Share (%) Distribution of Prurigo Nodularis by therapies in 2027

### **3. PRURIGO NODULARIS: DISEASE BACKGROUND AND OVERVIEW**

- 3.1. Introduction
- 3.2. Classification
- 3.3. Clinical Signs and Symptoms
- 3.4. Pathophysiology
- 3.5. ETIOLOGY
- 3.6. Diagnosis
- 3.7. Management

### **4. EPIDEMIOLOGY AND PATIENT POPULATION**

- 4.1. Key Findings

### **5. 7MM TOTAL PREVALENT POPULATION OF PRURIGO NODULARIS**

### **6. 7MM TOTAL DIAGNOSED PREVALENT POPULATION OF PRURIGO NODULARIS**

### **7. COUNTRY WISE-EPIDEMIOLOGY OF PRURIGO NODULARIS**

- 7.1. United States
  - 7.1.1. Assumptions and Rationale
  - 7.1.2. Total Prevalent Population of Prurigo Nodularis in the United States
  - 7.1.3. Total Diagnosed Prevalence of Prurigo Nodularis in the United States
  - 7.1.4. Type-Specific Diagnosed Prevalent Population of Prurigo Nodularis in the United States
  - 7.1.5. Severity Specific Diagnosed Prevalent Population of Prurigo Nodularis in the
