DelveInsight's "Smoking Cessation - Market Insights, Epidemiology and Market Forecast – 2028" report provides the detailed overview of the disease and in depth understanding of historical and forecasted Smoking Cessation epidemiology. It highlights the existing treatment patterns, potential upcoming Smoking Cessation drugs and also identifies best of the market opportunities by providing the current and forecasted market revenue, sales trends, and drug uptake during the study period from 2017-2028.

### Markets Covered

United States

EU5 (Germany, France, Italy, Spain and the United Kingdom)

Japan

Study Period: 2017-2028

### Smoking Cessation Understanding and Treatment Algorithm

The Smoking Cessation market report provides the in depth analysis of the disease overview by providing details such as disease definition, classification, symptoms, etiology, pathophysiology and diagnostic trends. The comprehensive details about

treatment algorithms and treatment guidelines for Smoking Cessation in the US, Europe, and Japan are also provided in the report.

### Smoking Cessation Epidemiology

This section provides the insights about historical and current Smoking Cessation patient pool and forecasted trend for 7 major markets. It takes into account the analysis of numerous studies, survey reports as well as KOL's views which helps to recognize the factors behind the current and forecasted trends, diagnosed and treatable patient pool along with assumptions undertaken.

### Smoking Cessation Product Profiles & Analysis

This part of the report encloses the detailed analysis of Smoking Cessation marketed drugs and Phase III and late Phase II pipeline drugs. It provides the key cross competition which evaluates the drugs on several parameters including, safety & efficacy results, mechanism of action, route, launch dates and designations. This section also covers the market intelligence and tracking of latest happenings, agreements and collaborations, approvals, patent details and other major breakthroughs.

### Smoking Cessation Market Outlook

The Smoking Cessation market outlook of the report helps to build the detailed comprehension of the historic, current and forecasted trend of the market by analyzing the impact of current therapies on the market, unmet needs, drivers and barriers and demand of better technology. This segment analyses the market trend of each marketed drug and late-stage pipeline drugs. This is done by evaluating their impact based on annual cost of therapy, inclusion and exclusion criteria's, mechanism of action, compliance rate, growing need of the market, increasing patient pool, covered patient segment, expected launch year, competition with other therapies, brand value, their impact on the market and view of the key opinion leaders. The calculated market data is presented with relevant tables and graphs to give a clear view of the market at first sight. Smoking Cessation Market Share by Therapies

This section focusses on the rate of uptake of the potential drugs recently launched or will be launched in the market during the study period from 2017-2028. The analysis covers market uptake by drugs; patient uptake by therapies and sales of each drug. This information also helps in understanding the drugs with the most rapid uptake and

the reasons behind the maximal use of new drugs. It provides the comparison of the drugs on the basis of market share and size. This analysis helps in investigating factors important in market uptake and in making financial as well as regulatory decisions.
