### Research Summary

Aluminous cement, also known as calcium aluminate cement (CAC), is a cement composed primarily of hydraulic calcium aluminates. It is made by sintering a mixture of limestone and bauxite or clay at high temperatures in a rotary kiln. Aluminous cement has high early strength and high heat resistance, which makes it suitable for use in high-temperature environments, such as furnaces, kilns, and chemical plants. It is also used in applications where rapid strength development is required, such as in the construction of precast concrete structures and rapid-setting repair products. However, its high cost and susceptibility to attack by sulfates limit its use in some applications.

The major global manufacturers of Aluminous Cement include Almatris, Imerys, Cimisa, Elfusa, RWC, Caltra Nederland, Gorka Cement, Denka Company, Carborundum Universal Limited, Cementos Molins, Union, Zhengzhou Dengfeng Smelting Materials, Fengrun Metallurgy Material, Zhengzhou Jinghua Special Cement, Shandong Shengriaopeng, etc. The global players competition landscape in this report is divided into three tiers. The first tier comprises global leading enterprises that command a

substantial market share, hold a dominant industry position, possess strong competitiveness and influence, and generate significant revenue. The second tier includes companies with a notable market presence and reputation; these firms actively follow industry leaders in product, service, or technological innovation and maintain a moderate revenue scale. The third tier consists of smaller companies with limited market share and lower brand recognition, primarily focused on local markets and generating comparatively lower revenue.

This report studies the market size, price trends and future development prospects of Aluminous Cement. Focus on analysing the market share, product portfolio, prices, sales, revenue and gross profit margin of global major manufacturers, as well as the market status and trends of different product types and applications in the global Aluminous Cement market.
