Research Summary

Billiard cues, also known as pool cues or snooker cues, are specialized sticks used in cue sports like pool, snooker, and billiards. They are essential tools for players to strike the cue ball and control its movement on the table. Billiard cues typically consist of three main parts: the tip, shaft, and butt. The tip is made of leather and is used to strike the cue ball, imparting spin and control. The shaft is the long, tapered portion of the cue that connects the tip to the butt. It provides stability and determines the cue's flexibility and power. The butt is the handle or gripping area of the cue, often intricately designed and sometimes weighted for personalized balance and feel.
