Locust Bean Gum (E-410) is a natural food additive derived from the seeds of the carob tree (*Ceratonia siliqua*). It is a thickening and stabilizing agent commonly used in the food industry. Locust Bean Gum is mainly composed of galactomannans, a type of complex carbohydrate. It is often used as a vegetarian and vegan alternative to animal-derived additives like gelatin. Locust Bean Gum works by absorbing and binding water, which results in increased viscosity and improved texture in food products. It is known for its ability to provide smoothness and creaminess in various food applications, such as ice creams, sauces, dressings, and bakery products.
