### Research Summary

A patent annuity service is a specialized administrative solution that helps patent holders manage and pay the periodic fees required to maintain their patents' validity in various jurisdictions. These fees, often called annuity or renewal fees, must be paid annually or at designated intervals to keep the patent rights in force. Patent annuity services streamline this process by tracking deadlines, calculating fees for different countries, and ensuring timely payments, thus minimizing the risk of unintentional lapses in patent protection. These services are invaluable for inventors, corporations, and legal firms managing large patent portfolios, as they reduce administrative burden and ensure compliance with international patent regulations.

The major global suppliers of Patent Annuity Service include Clarivate (CPA Global), NovumIP (Novagraaf & PAVIS), Dennemeyer, Questel, Murgitroyd, Anaqua, Computer Packages Inc, MaxVal Group, Page, White & Farrer, Acumass, IP Centrum Limited, Thomson Reuters IP Management, Envoy, Novagraaf, Brandstock, Zacco, PAVIS, etc. The global players competition landscape in this report is divided into three tiers.
