Research Summary

Property and Casualty (P&C) insurance software refers to specialized software solutions designed for the management and administration of insurance policies in the P&C insurance sector. These software systems are tailored to the unique needs of insurers offering coverage for property and casualty risks, such as home, auto, business, and liability insurance. P&C insurance software typically includes modules for policy management, claims processing, underwriting, billing, and customer management. It streamlines various aspects of the insurance business, from policy issuance and premium calculations to claims processing and customer interactions, leading to improved efficiency, accuracy, and customer service. This technology enables insurers to effectively manage policies, assess risks, process claims, and maintain compliance with regulatory requirements in a dynamic and competitive insurance market.

The major global suppliers of P&C Insurance Software include Willis Tower Watson, Insurance Systems, PCMS, ClarionDoor, Quick Silver Systems, Pegasystems, Duck

Creek Technologies, Agency Software, Sapiens, InsuredMine, Quadiant, Guidewire Software, Zywave, etc. The global players competition landscape in this report is divided into three tiers. The first tier comprises global leading enterprises that command a substantial market share, hold a dominant industry position, possess strong competitiveness and influence, and generate significant revenue. The second tier includes companies with a notable market presence and reputation; these firms actively follow industry leaders in product, service, or technological innovation and maintain a moderate revenue scale. The third tier consists of smaller companies with limited market share and lower brand recognition, primarily focused on local markets and generating comparatively lower revenue.

This report studies the market size, price trends and future development prospects of P&C Insurance Software. Focus on analysing the market share, product portfolio, prices, sales, revenue and gross profit margin of global major suppliers, as well as the market status and trends of different product types and applications in the global P&C Insurance Software market. The report data covers historical data from 2020 to 2024, based year in 2025 and forecast data from 2026 to 2032.

The regions and countries in the report include North America, Europe, China, APAC (excl.
