Abstracts

Market Overview

According to DIResearch's in-depth investigation and research, the global Polyethylene Glycol (PEG) market size will reach 4,107.19 Million USD in 2025 and is projected to reach 6,086.53 Million USD by 2032, with a CAGR of 5.78% (2025-2032). Notably, the China Polyethylene Glycol (PEG) market has changed rapidly in the past few years. By 2025, China's market size is expected to be Million USD, representing approximately % of the global market share.

Research Summary

Polyethylene Glycol (PEG) is a polyether compound with recurring units of ethylene oxide. It is a water-soluble polymer with various molecular weights, and its properties depend on the specific chain length. PEG is widely used in pharmaceuticals, cosmetics, and personal care products due to its biocompatibility and low toxicity. It serves as a versatile ingredient in formulations such as ointments, creams, and laxatives. PEG's ability to form stable emulsions, act as a humectant, and enhance solubility makes it valuable in diverse applications. Additionally, PEG is utilized in laboratories as a water-miscible solvent and in the synthesis of nanoparticles and biomaterials. The wide range of molecular weights available allows for tailoring PEG's characteristics to meet specific requirements in different industries, making it a ubiquitous and versatile polymer.

The major global manufacturers of Polyethylene Glycol (PEG) include Dow Chemical, Ineos, BASF, Kao Chemicals, Blaunon, Liaoning Oxiranchem, Jiangsu Haian, Clariant, Croda, PCC SE, Norchem, Oxiteno, Lotte Chemical, Sanyo Chemical, India Glycols, Petronas Chemicals, Shandong Ruisheng, Jiangxi Yipusheng, Liaoning Huaxing, etc.

The global players competition landscape in this report is divided into three tiers. The first tier comprises global leading enterprises that command a substantial market share, hold a dominant industry position, possess strong competitiveness and influence, and generate significant revenue. The second tier includes companies with a notable market presence and reputation; these firms actively follow industry leaders in product, service, or technological innovation and maintain a moderate revenue scale. The third tier consists of smaller companies with limited market share and lower brand recognition, primarily focused on local markets and generating comparatively lower revenue.

This report studies the market size, price trends and future development prospects of Polyethylene Glycol (PEG). Focus on analysing the market share, product portfolio, prices, sales, revenue and gross profit margin of global major manufacturers, as well as the market status and trends of different product types and applications in the global Polyethylene Glycol (PEG) market. The report data covers historical data from 2020 to 2024, based year in 2025 and forecast data from 2026 to 2032.

The regions and countries in the report include North America, Europe, China, APAC (excl. China), Latin America and Middle East and Africa, covering the Polyethylene Glycol (PEG) market conditions and future development trends of key regions and countries, combined with industry-related policies and the latest technological developments, analyze the development characteristics of Polyethylene Glycol (PEG) industries in various regions and countries, help companies understand the development characteristics of each region, help companies formulate business strategies, and achieve the ultimate goal of the company's global development strategy.

The data sources of this report mainly include the National Bureau of Statistics, customs databases, industry associations, corporate financial reports, third-party databases, etc. Among them, macroeconomic data mainly comes from the National Bureau of Statistics, International Economic Research Organization; industry statistical data mainly come from industry associations; company data mainly comes from interviews, public information collection, third-party reliable databases, and price data mainly comes from various markets monitoring database.

Global Key Manufacturers of Polyethylene Glycol (PEG) Include:
