Research Summary

A snow sweeper truck, also known as a snow plow truck or snow removal vehicle, is a specialized vehicle equipped with a snow plow attachment used to clear snow and ice from roads, streets, and other paved surfaces. These trucks typically feature a front-mounted plow blade that can be angled and lowered to push snow to the side or into a collection area, such as a dump truck or snowbank. Some snow sweeper trucks also have additional attachments, such as salt spreaders or sanders, to apply deicing agents and improve traction on icy surfaces.
