Abstracts

Amid the COVID-19 crisis, the United States human vaccines market is poised to grow by US\$ 31,517 million by 2028, accelerating at a CAGR of 7% during the forecast period.

The prominent factors that are expected to contribute to the growth of the United States human vaccines market:

Increased Disease Awareness

Approval/launches of the New Vaccines

Rising Focus on Immunization Programs

Increasing Investments and Government Support for the Vaccines Development

After conducting thorough research on the historical and current growth parameters, the growth prospects of the United States human vaccines market are obtained with maximum precision.

This new 2022 market report provides a holistic analysis of the entire United States human vaccines market. The report offers the most up-to-date industry data on the actual market situation and future outlook for the United States' human vaccines

market. The report also provides up-to-date historical market size data for the period 2018 – 2021 and an illustrative forecast to 2028 covering key market aspects like market value, analysis, and trends for human vaccines in the United States. A comprehensive analysis has been done on market share with the percentage of all the 45 human vaccines brand used in the United States.

The report contains a deep analysis of the United States human vaccines market size in terms of value. The report provides a clear insight into current and future developments of the United States vaccines market. The report also explores the detailed analysis, insights of the top 45 vaccines market assessment in the United States from 2018 to 2021, and forecasts to 2028. The report also details the latest information about the vaccine's pricing analysis, insights, and trends, and the regulatory framework of the United States human vaccines market.

The report also tracks and analyses competitive developments, including collaboration, partnership deals, distribution, exclusive and licensing agreements, new vaccine developments, and R&D activities in the market. The report also delivers an in-depth analysis of evolving market trends, drivers, and restraining forces that influence the growth of the market.

The report also analyses detailed profiles of innovative and leading players with information on business overview, companies' vaccines portfolio, promising vaccines in the clinical development, and the newest developments

The report will serve as a source for a 360-degree analysis, thoroughly integrating different models.

This Newest and Comprehensive the United States Human Vaccines Market Research Report 2022 Delivers:

Comprehensive Research Methodology of the United States Human Vaccines Market

Detailed and Extensive Market Overview with Key Analyst Insights

Insights about Market Determinants that are Stimulating the United States Human Vaccines Market

To Analyze the Historical Growth in the Market Size of the United States Human

Vaccines Market from 2018 to 2021

To Estimate and Forecast the Market Size of the United States Human Vaccines Market from 2022 to 2028 and Growth Rate until 2028

Detailed Insights of the Top 45 Human Vaccines Market Value Used in the U.S. with Six Years Forecast

An Insightful Analysis of the Top 45 Vaccines Brand Market Share and Y-o-Y Growth Rate

Delivers All-inclusive Insights on the Latest Pricing Analysis, Insights, and Trends

Delivers an In-Depth Analysis of Evolving Market Trends, Drivers, and Restraints of the United States Human Vaccines Market

An Insightful Investigation has been done on Promising Human Vaccines in the Clinical Development

Delivers Comprehensive Insights into the Regulatory Framework of the United States Human Vaccines Market

Tracks Competitive Developments, Approaches, Recent Industry Developments, Partnership, Collaboration Deals, Distribution, Exclusive, and Licensing Agreement

A Comprehensive List of the Leading Companies along with the Analysis of their Current Vaccines Portfolio, Promising Human Vaccines in the Clinical Development, and Present Development

The Key Market Players for the United States Human Vaccines Market are Listed Below:

Pfizer

Merck

Sanofi Pasteur

Seqirus (CSL Limited)

AstraZeneca

GlaxoSmithKline (GSK)

Emergent Biosolutions

Dynavax Technologies Corporation

The Following 45 Leading Human Vaccines Brand are Detailed with Market Value and Six-Years Forecast:

- 1) Fluad
- 2) Trumenba
- 3) Depvacel
- 4) Quadracel
- 5) Kinrix
- 6) Pentacel
- 7) Vaxelis
- 8) IPOL
- 9) Vaqta
- 10) Havrix
- 11) Twinrix
- 12) Engerix
- 13) PedvaxHIB
- 14) ActHIB
- 15) Hiberix
- 16) MenQuadfi
- 17) Tenivac
- 18) Imovax
- 19) Prevnar 13
- 20) Gardasil 9
- 21) Menactra
- 22) Fluarix
- 23) FluLaval

- 24) Varivax
- 25) Proquad
- 26) M–M–R II
- 27) Adacel
- 28) Boostrix
- 29) Bexsero
- 30) Menveo
- 31) Shingrix
- 32) Rotateq
- 33) Rotarix
- 34) Infanrix
- 35) Pediarix
- 36) Hephisav–B
- 37) TDVAX
- 38) Biothrax
- 39) Recombivax HB
- 40) Pneumovax 23
- 41) FluMist Quadrivalent
- 42) Flucelvax Quadrivalent
- 43) Afluria Quadrivalent
- 44) Fluzone Quadrivalent
- 45) Flublok Quadrivalent

The Report Helps Answer the Following Questions:

What is the current scenario of the United States human vaccines market?

What is the total market size and forecast (until 2028) of the United States human vaccines market?

How big is the United States human vaccines market?

At what CAGR is the U.S. human vaccines market projected to grow in the forecast period (2022-2028)?

What are the leading human vaccines? What are their revenue potentials to 2028?

Which human vaccine brand provides the highest market share?

What is the regulatory framework in the United States vaccines market?

What are the key factors driving the United States human vaccines market?

What are the key challenges of the United States human vaccines market?

What are the major deals and agreement happenings in the United States human vaccines market?

What are the United States human vaccines pricing trends and analysis?

What are the various human vaccines available in the United States?

Who are the topmost market players? What are their happenings, current developments, and scenarios?

How is the market predicted to develop in the future?
