Abstracts

The developed world has some of the world's most digitally connected markets, providing immense opportunities in new-age applications such as digital commerce and the Internet of Things. Leveraging the 2017 Digital Connectivity Index, this briefing will explore the future digital landscape, and investment opportunities in key markets such as South Korea, the US and Australia. However, concerns surrounding online privacy and ageing populations need to be addressed by authorities.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
