Abstracts

The increasing awareness about the health and challenges of the planet has been translated into accelerated actions and investments by companies and governments. Companies competing in fmcg have an opportunity to leverage their plant-based portfolio under the banner of sustainability. However, education, transparency and a clear value proposition remain critical to enhance consumers' perceived value, whilst adequately explaining the safety and efficacy of their plant-based products. Euromonitor International's A Plant-Based Approach to Sustainability in Asia Pacific global briefing offers an insight into to the size and shape of the Home Care market, highlights buzz topics, emerging regions, countries and categories as well as pressing industry issues and white spaces. It identifies the opportunity zones within home care, analyses leading companies and brands and offers strategic analysis of major factors influencing the market - be they new product developments, packaging/ format /ingredients innovations, economic/lifestyle/environmental influences, distribution or retail pricing issues. Forecasts illustrate how the market is set to change and criteria for success.

Product coverage: Air Care, Bleach, Dishwashing, Home Insecticides, Laundry Care, Polishes, Surface Care, Toilet Care.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
