Abstracts

In 2016, adult incontinence continued to benefit from the growing aging population as well as from a positive change in cultural attitudes towards incontinence products. Approximately five million Australians are estimated to be experiencing some form of incontinence in Australia. On top of that, increasing shelf space and better positioning of adult incontinence products next to sanitary protection products, to avoid potential embarrassment for consumers, in retail stores were observed in 2016.

Euromonitor International's Adult Incontinence in Australia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2012-2016, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2021 illustrate how the market is set to change.

Product coverage: Light Adult Incontinence, Moderate/Heavy Adult Incontinence.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
