## Abstracts

Adult incontinence continued recording healthy gains in 2016 thanks to declining stigma associated with buying and using adult incontinence products in Lithuanian society as well as improving consumer awareness of products available. Also, improving purchasing power has made the products affordable to more people facing incontinence issues. However, the number of Lithuanians with incontinence problems who do not use any products remains very high in Lithuania, which leaves much room for the pote...

Euromonitor International's Adult Incontinence in Lithuania report offers a comprehensive guide to the size and shape of the market at a national level.
