Date: March 2017

Pages: 22

Price: US\$ 990.00 (Single User License)

ID: A8E70E8B408EN

Abstracts

In addition to considerations such as rising awareness and greater product availability, the ageing of the population can be viewed as a prime driving force behind the growth of adult incontinence. The category registered a retail volume increase of 5% in 2016. The number of Norwegians aged 65+ years reached 851,420 in 2016, or 16% of the total population. This is an increase of 15% on 2011's recordings when the Norwegian population aged 65+ years was 15% of the total population.

Euromonitor International's Adult Incontinence in Norway report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2012-2016, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing

issues. Forecasts to 2021 illustrate how the market is set to change.

Product coverage: Light Adult Incontinence, Moderate/Heavy Adult Incontinence.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
