Abstracts

Retail value sales of adult incontinence increased by 11% in current terms in 2016 due to a growing ageing population in Taiwan and greater consumer awareness enhanced by continuous education over the years. The population aged 65 and above increased by 5% in 2016, and will keep increasing. Therefore, Taiwanese society and families pay more attention to the elderly, and consumer education is not only aimed towards adult incontinence users but towards the purchasers as well.

Euromonitor International's Adult Incontinence in Taiwan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2012-2016, allowing you to identify the sectors driving growth.
