## Abstracts

Despite the long presence of such products in Uzbekistan, sales of adult incontinence products remain relatively low in the country. The reason is that using adult incontinence products has been a social or cultural taboo, which prevented mass consumption. However, the situation started to change towards the end of the review period. Increased recommendations by doctors to their patients to use incontinence products led to the gradual breaking down of social/cultural taboos towards the end of th...

Euromonitor International's Adult Incontinence in Uzbekistan report offers a comprehensive guide to the size and shape of the market at a national level.
