Abstracts

While the Brazilian economy experienced significant setbacks caused by the COVID-19 outbreak in 2020, the agriculture industry saw expanding production volumes and overall turnover growth. The largest contributors to the successful harvest results were growth in soybean and wheat output. According to national statistics, total soybean output in 2020 reached 130 million tonnes, up by 7% compared to the previous year, while wheat volume output expanded by 8% year-on-year, to reach 7 million tonnes...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Agriculture market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.
