## Abstracts

Indonesia's agriculture industry saw steady revenue growth in 2018, on the back of increased rice and corn crop output. According to the Ministry of Agriculture and Rural Development, annual unhusked rice production was estimated at around 83 million tonnes, which represented a 2% year-on-year increase. Gains were mostly driven by an expansion of the planting area due to low stock levels. Corn also maintained previous years' upward trend in 2018, with preliminary estimates pointing to an output...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Agriculture market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.
