Abstracts

Inflation is a driving force behind the growth of air care products in value terms in Slovenia. With rising unit prices, consumers are adopting a more cautious approach to their spending habits, leading to a decline in volume sales. Although consumers still appreciate the wellness benefits and pleasant fragrances of air care products, they are now making purchases more judiciously. The decline in volume sales can also be attributed to the previous year's surge in purchases, as many consumers eng...

Euromonitor International's Air Care in Slovenia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
