Abstracts

Sharp price increases for a second year in a row failed to significantly dampen the strong demand for travel, and passenger numbers recovered strongly to move towards the 2019 pre-pandemic level. In 2022, sharp increases in fuel and energy prices, following the Russian invasion of Ukraine, were the main price drivers. The consequences of this were also felt in 2023, when corresponding wage increases were demanded to cope with still high inflation and the sharp increase in the general cost of liv...

Euromonitor International's Airlines in Austria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2027 illustrate how the market is set to change.
