## Abstracts

Russia's war in Ukraine coupled with the EU's ambitious Zero Carbon policy continues to put pressure on fuel prices and this has led to a significant increase in the average ticket price for the end consumer. European regulators have introduced new measures aimed at pushing airlines to switch to sustainable aviation fuel (SAF) which is considerably more expensive than standard fuel. Nonetheless, despite this increase in ticket prices the number of passengers travelling with airlines is set to se...

Euromonitor International's Airlines in Ireland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2027 illustrate how the market is set to change.
