Date: September 2023

Pages: 15

Price: US\$ 990.00 (Single User License)

ID: A024D6237BAEN

## Abstracts

The volume of passengers travelling by air surpassed pre-COVID-19 levels in 2023. This was due to the easing of pandemic-related restrictions, which encouraged consumers to revive any travel plans that had been put on hold during the pandemic. Indeed, there was a notable increase in the number of inbound arrivals by international visitors, reflecting a renewed confidence amongst consumers to travel by air once more.

Euromonitor International's Airlines in Philippines report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2027 illustrate how the market is set to change.
