Abstracts

Ecuador's widespread vaccination campaign helped Ecuador to start 2022 with the effects of the pandemic greatly reduced. There were still outbreaks in the first quarter due to the omicron variant, which led to mild restrictions during this period. However, these outbreaks were quite brief, and the rest of the year passed without much disruption. Consumers were able to resume their social lives and with this, alcoholic drinks sales continued to recover.

Euromonitor International's Alcoholic Drinks in Ecuador report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2018-2022), allowing you to identify the sectors driving growth.
