Abstracts

Amman is playing an increasingly important role in the Middle East. During 2007-2012, Jordan's capital city was one of the fastest growing economies in the region with an average annual GDP growth rate of 4% (at constant 2012 prices). With no oil deposits to boast, Amman looks to services, particularly tourism, IT and banking, to drive its expansion. The city has a positive economic outlook if it successfully manages the political uncertainty following the events of the Arab Spring.
