Abstracts

Ankara emerged as a brand new city in Turkey, following its designation as the country's capital in 1923. By 2012, Ankara ranked among the wealthiest cities in Turkey, being second only to Istanbul in average household income and population size. Compared to Istanbul, the city struggles to attract FDI, although it is the location of much of Turkey's educational, public services and research and development capacity.

Euromonitor's City Review report

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?
