Date: November 2023

Pages: 20

Price: US\$ 990.00 (Single User License)

ID: AAAF4B3BEEN

Abstracts

Retail volume sales of apparel accessories plummeted in 2023. This was due to the declining performance of other apparel accessories, following the relaxation of regulations regarding the wearing of face masks in indoor settings in December 2022. The performance of the category was very much impacted by the pandemic, when there was a huge increase in demand for cloth face masks, which became a crucial accessory.

Euromonitor International's Apparel Accessories in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022 and analysis by distribution format allowing you to identify the sectors driving growth.
