Abstracts

Apparel accessories declined in retail volume terms in 2022 due to poor economic conditions during the year, although the category saw a slight increase in current value sales due to rising unit prices. High inflation had a deep impact on purchasing power, forcing consumers to restrict spending to just the essentials or seek cheap alternatives, such as those found through informal marketplaces. There was a reduction in demand for formal wear as professional employment declined, which also had a neg...

Euromonitor International's Apparel Accessories in Nigeria report offers a comprehensive guide to the size and shape of the market at a national level.
