Abstracts

Apparel accessories remains in both value and volume slumps in 2023, albeit improving upon the sharper drops seen in 2022. We can attribute this to a normalisation effect following the atypical patterns seen during the era of the pandemic. Notably, there was lesser need for apparel accessories during the lockdowns, however, fashion face masks, under other apparel accessories, boomed into triple-figure growth during the era when face masks were mandatory in public.

Euromonitor International's Apparel Accessories in Saudi Arabia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022 and analysis by distribution format allowing you to identify the sectors driving growth. It identifies the leading companies, leading brands, and offers strategic analysis of key factors influencing the market. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Belts, Gloves, Hats/Caps, Other Apparel Accessories, Scarves, Ties.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
