## Abstracts

The apparel and footwear industry saw a 1.2% value growth in 2017, an improvement over 2016. But at 3.1% in 2017, volume growth outpaces value growth. The market is indeed being fuelled by volumes as fast-fashion continues expanding in emerging markets and North America, despite market saturation in Europe. The global market also offers various opportunities from the evolution of athleisure, to the reinvention of denim and redefining the shopping experience on and offline.

Euromonitor International's Apparel and Footwear Global Industry Overview global briefing offers an insight into to the size and shape of the apparel market, highlights buzz topics, emerging trends as well as pressing industry issues. It identifies the leading companies and brands, offers strategic analysis of key factors influencing the clothing and footwear market - be they changes on the supply side, in channel dynamics, economic/ lifestyle /demographic influences or pricing issues. Forecasts illustrate how the market is set to change and criteria for success.
