## Abstracts

Apparel and footwear in Taiwan is poised to register a negative result in volume terms for a second consecutive year in 2023, while current value growth looks set to be down slightly on 2022. This is mainly due to increased caution around discretionary spending amidst high inflation, which has continued to erode purchasing power and drive up the general cost of living. Moreover, several categories have seen sales slow or contract as demand has stabilised after having rebounded strongly the previ...
