Abstracts

Apparel and footwear sales have seen positive growth in 2021, following a steep drop in sales in 2020 as a result of the first wave of the pandemic. Sales have largely been driven by the reopening of the economy, and the easing of many quarantine restrictions. Consumers are beginning to return to workspaces and educational institutions, spurring demand for both formal and informal clothes. However, the category is by no means out of the woods; despite the return of positive growth, value sales i...
