Abstracts

Apparel and footwear were negatively impacted by the lockdowns in 2020, with outlets closed for much of the year and as a result, current value growth was low. In 2021, with society gradually opening up and people socialising again and returning to offices, there was a strong recovery, with a double-digit increase in current value sales.

Euromonitor International's Apparel and Footwear Specialist Retailers in Uzbekistan report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
