Abstracts

Retail sales of apparel and footwear in Spain registered a slowdown in growth in both volume and constant value terms in 2023, with the high cost of living being the key factor behind this trend. With many households exposed to rising interest rates, given the high concentration of variable-rate mortgages, Spaniards saw a decline in their real disposable incomes. While the rate of inflation showed signs of easing during the second half of the year, due to lower energy prices, consumers exercised...
