## Abstracts

The home seclusion trend as a result of a national lockdown allowed many parents to dedicate greater time to preparing food for their infants. This was also accompanied by a rising trend of parents choosing cow's milk rather than milk formula, as it is seen as a time-saving, convenient and affordable option that can be used by the entire family. This resulted in a slowdown in the growth in the packaging unit volumes of metal tins and brick liquid cartons used in milk formula in 2020. However, in...
