Abstracts

Due to inflation and economic uncertainties leading to rising unit prices, as well as increased production costs resulting from the Russian invasion of Ukraine, baby and child-specific products experienced robust double-digit growth in retail value sales in 2022. Notably, baby and child-specific skin care products emerged as the primary driver of this retail value growth. However, in terms of volume, the product area saw only moderate growth due to decreased consumer demand caused by shaken cons...

Euromonitor International's Baby and Child-specific Products in North Macedonia report offers a comprehensive guide to the size and shape of the market at a national level.
