Abstracts

Baby and child-specific products recorded solid current retail value growth in 2022; however, this was heavily due to the strong increase in unit prices for all categories, rather than an indication of a positive performance. High inflation in the economy, largely driven by the depreciation of the local currency against the US dollar, led to higher production and import costs, leading manufacturers and importers to raise unit prices. The inflationary conditions significantly weakened consumer sp...

Euromonitor International's Baby and Child-specific Products in Nigeria report offers a comprehensive guide to the size and shape of the market at a national level.
