Abstracts

Despite the low birth rate in South Korea, current value growth was maintained in baby and child-specific products in 2023. Parents are becoming increasingly savvy in terms of purchasing products that suit their children, regardless of whether they are premium or not. Products are often purchased separately for the face, body, and bottom, while seasonal product purchases have also become prevalent; for example, soothing products are purchased in the summer, while moisturising products are favour...

Euromonitor International's Baby and Child-specific Products in South Korea report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
